The Colombian Connection:

The White Labyrinth Rensselaer W. Lee, 1991-01-01 Powerful forces work against efforts to control the flow of illegal narcotics into the United States from the Third World The potential for conflict and recrimination is built into the situation The main consumer countries are poor and predominantly agricultural Cocaine traffic in the Western Hemisphere is a particularly serious example of how this conflict of interests plays out Producing countries and consuming countries each blame the other and depending on which side they are on advocate either demand side or supply side solutions controlling the demand of users in the United States for cocaine versus controlling the demand of users in the United States for cocaine versus controlling the supply from South America U S concerns are fairly unambiguous Cocaine imports have increased five to tenfold since 1977 and abuse of cocaine and its derivative crack has become a serious social problem in the United States The position of producing countries is also clear cut Political elites in Third World countries view antidrug crusades with hostility because they impose significant new burdens and create formidable new challenges The White Labyrinth explains why it is so difficult to take effective action against the cocaine problem It looks closely at problems faced by producing countries the economic and political pressures that make it so difficult to address the problem from a supply side perspective It analyzes the devastating pressure tactics of coca lobbies and cocaine trafficking syndicates It explores the complex relationships between the cocaine industry and leftist revolutionary movements It examines the negative consequences of actions taken by the United States The White Labyrinth is an in depth examination of a problem that is of paramount public concern It will be of interest to all those concerned with the development of effective policies from parents to public officials

Deborah Pacini Hernandez,2010 Latino music as an amalgam of American cultures **Colombia** Robert Henry Davis,1990 **Organized Crime** Howard Abadinsky,2007 Abadinsky provides a detailed comprehensive analysis of the origins history theoretical explanations and structure of domestic and international organized crime including drug trafficking gambling and loan sharking The author also explains the methods employed by law enforcement agencies to combat organized crime and the policy decisions reached by various investigating committees and commissions including the President s Commission on Organized Crime **Dancing on a Volcano** Scott Macdonald,1988-10-12 This book is an informative and well written piece of research on a contemporary issues of major interest to the United States Most highly recommended La Red The Net Provides in one place a well written survey of the problem of the drug trade in the Americas especially on the socio economic and political aspects of the phenomena The book will serve as a useful resource to persons working in Latin American drug trade Caribbean Review This short book is an excellent introduction to the complicated history and turbulent present day status of illegal drugs in several Latin American neighborhoods National Catholic News Service This provocative informative book explores what is rapidly becoming a major obstacle in inter American relations Despite the common problems created by increasing drug addiction and drug related violence each side continues to blame the other for the deepening crisis There is MacDonald states emphatically enough blame to go around for everyone He puts the Latin American drug trade in much needed perspective providing both historical background and insight on the contemporary political ramifications of drug

trafficking Because the drug trade is an inter American phenomenon the solution to it will have to be a joint one Among the problems that will have to be faced according to the author are Cuba s role as an active middleman in the drug trade the U S market for illegal drugs the impact of the drug trade on U S policy in the region and the interrelationship of the drug problem to the Latin American debt crisis He warns that there will be no quick victories in the war on drugs in Latin America and the strategies used must attack both supply and demand Whatever the approach used its success or failure will depend on the ability of both the United States and the Latin American nations to contain the drugs insurgency nexus and to deal with the increasingly political nature of the drug trade **Senate documents** ,1882 **Latincom** ,1999 *The Descent of Man, and Selection in Relation to Sex* Charles Darwin,1882 *Multinational Investment Programs and Latin American Integration* Development and Resources Corporation,Inter-American Development Bank,1966 Report on multi national level investment policies and programmes and economic integration in Latin America Statistical tables and bibliography **Hispanic Link** ,1985 **House documents** ,1881 **Foreign Report** ,1982
