Sociological Theory In The Classical Era Text And Readings:

Sociological Theory in the Classical Era Laura Desfor Edles, Scott Appelrouth, 2020-06-18 Now available for the first time in both print and e book formats Sociological Theory in the Classical Era Fourth Edition is an innovative text reader for courses in classical theory. It introduces students to important original works by sociology's key classical theorists while providing a thorough framework for understanding these challenging readings. For each theorist the editors supply a biographical sketch, discuss intellectual influences and core ideas, and offer contemporary applications of those ideas. In addition to the seven major theorists covered, the book also connects their work to Significant Others writers and thinkers who may have derived much of their own perspectives from Marx, Durkheim, Weber, Gilman, Simmel, Du Bois, and Mead. Included with this title, The password protected Instructor Resource Site, formerly known as SAGE Edge, offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides.

Sociological Theory in the Contemporary Era Scott Appelrouth, Laura Desfor Edles, 2007 Sociological Theory in the Contemporary Era Text and Readings features well edited original writings from sociology's core contemporary theorists with introductory text that provides a historical and theoretical framework for understanding these works. Authors Scott Appelrouth and Laura Desfor Edles use this unique text reader approach to introduce students to sociological theory in a lively and engaging fashion. Key Features: Enables students to compare and contrast core concepts and ideas. This book provides not just a biographical and theoretical summary of each theorist reading but an overarching theoretical framework with which to understand, compare, and contrast these selections. The authors rely on original texts to derive new meaning and excitement of sociological theory. Stresses contemporary applications and examples. In addition to chapters on well known figures, there is also an in depth discussion of lesser known voices. The social and intellectual milieu in which the selections were written is discussed as well as their contemporary relevance. Thus the book connects these seemingly disparate works not only theoretically but also via concrete applications to today's world. Provides a variety of visuals and pedagogical devices. Charts, figures, photographs and discussion questions help summarize key concepts, illuminate complex ideas, and provoke student interest. No other theory text combines such student friendly explanation and analysis with original theoretical works.

Intended Audience: This is an excellent text for advanced undergraduate and graduate students studying sociological theory in courses such as Contemporary Sociological Theory, Classical and Contemporary Sociological Theory, and Sociological Theory.

Breaking Down Silos for Equity, Diversity, and Inclusion (EDI) Stephanie L. Burrell, Storms, Sarah K. Donovan, Theodora P. Williams, 2020-02-19 Equity, diversity, and inclusion EDI goals have traditionally been seen as either an effort to be managed by the administration or as something a faculty member could choose or not to focus on. It is in this milieu that this book was written. Each chapter in this book is designed for use by instructors and administrators in higher

education who believe that the goals of EDI should be integrated into the classroom experience. The chapters are grouped around five central themes that challenge the structure of a traditional classroom in order to promote goals related to EDI faculty collaboration creative approaches to faculty and student resistance to EDI goals institution wide initiatives community engagement and the use of first person autobiography and storytelling in the classroom

Restoring the Classic in Sociology

Alan R. How, 2016-06-30 This book

demonstrates that classical sociology is essential to cutting edge debates in the contemporary social sciences It has become fashionable to play down the importance of the classic text in sociology and critique the ideas of Weber Marx and Durkheim as ideologically outdated The author mounts a strong challenge to this view criticising such notions as de traditionalization structuration and postmodernism emphasizing instead the relevance of habit re traditionalization and social integration across time Arguing that sociology has eliminated the importance of the past history and tradition in favour of the transience of the present he revisits the Habermas Gadamer debate to argue that tradition is the ground of the classic and the classic something that must prove itself anew in subsequent situations He uses the work of Durkheim Simmel and Weber to illustrate this process Making a distinction between classic and canon which parallels that between agency and structure he allows the reader to appreciate the separate value of both This major contribution to the field is essential reading for scholars and students of sociology and social theory
