Words Against Words Malcolm Angelucci, 2011 Words Against Words is the first book to consider the philosophical works of Carlo Michelstaedter 1887-1910 from a stylistic point of view. It focuses on the links between poetic and rhetoric in Michelstaedter's major work *La Persuasione e la Rettorica*, well known for its original multilingualism and embodiment of subgenres: dialogues, apologies, and parables; technical jargons. In the context of the early twentieth-century crisis of language in Central Europe, Carlo Michelstaedter, a young Italian-speaking Jew from Gorizia who left the Austro-Hungarian territory to study in Florence, articulates one of the most radical examples of negative thought while at the same time struggling to define a way to regain freedom from contingency, unity of meaning, and the absolute state of persuasion. Malcolm Angelucci's book reads *La Persuasione e la Rettorica* against itself, demonstrating how it is in the practice of signification in the writing of a philosophy and a poetic that the challenge against the inadequacy of words is played out in one of the most interesting examples of Italian speculation of the period. Angelucci's post-structuralist approach and analysis of rhetorical figures adopts and reworks the Bakhtinian concept of dialogism in order to demonstrate the peculiar loss of centre of Michelstaedter's text and the relativisation of the pretences of the heroic narrator in ways which are coherent with the best examples of early Central European Modernism. This book intervenes in the growing debate on Michelstaedter in the English-speaking world and suits an audience of academics and tertiary students interested in Italian and Central European literature and culture in the first decades of the Twentieth century. Nevertheless, it also caters for the growing number of Michelstaedter enthusiasts and readers interested in expressionism, avant-garde, and early Modernism. *Rhetorical Memory and Delivery* John

Frederick Reynolds, 2013-11-05 Why has classical rhetoric been a subject of such growing interest for the past ten years? Because the most exciting work in classical rhetoric has asked us to rethink classical concepts in modern terms. What's been missing at least in book-length form is a scholarly rethinking of rhetorical memory and delivery. As many scholars have been noting in their work for some time now, three of five classical issues: invention, arrangement, and style have dominated rhetorical studies, while the other two, memory and delivery, have largely been misunderstood or ignored. Re-examined in light of recent research on orality, literacy, and electronic technology, rhetorical memory and delivery issues can become not only central to the field but also key to the continued interest in classical rhetoric. Bringing together national scholars from a variety of related disciplines in which rhetorical memory and delivery issues matter, this collection is the only volume that examines classical and contemporary interpretations of rhetorical memory and delivery in depth and detail. *Textfiles* Ronald A.
