Textual Evidence And Commentary **Textual Evidence And Procedures:**

A Model Civil Procedure Code for England and Wales John Sorabji, 2024-10-14 Civil procedure law is integral to our understanding of access routes to justice dispute resolution and ultimately the rule of law. However the field is rapidly changing shifting dispute resolution away from courts and judgments towards other legal pathways such as negotiation mediation arbitration and Ombudsman. Similarly the increasing digitisation of society and looming potential of AI will profoundly influence future reforms. Civil justice is thus at a critical turning point. In response John Sorabji proposes a new model civil procedure code for England and Wales. Building on the work of the ALI UNIDROIT Principles of Transnational Civil Procedure and the ELI UNIDROIT Model European Rules of Civil Procedure he articulates a simplified principle based seventeen part approach that covers all major stages from issue to enforcement with sections on costs and funding provisional measures access to evidence and privileges case statements hearings and dispute management. Highlighting that civil courts are just one part of a wider civil justice ecosystem Sorabji promotes the wealth of avenues available for dispute resolution and charts how these should be co-ordinated in the future. He outlines new ways to efficiently incorporate breakthroughs in digitisation and preventive and consensual forms of justice and also explores likely shifts in the purpose of procedural codes as digitisation evolves while underscoring the consistent need for judicial independence and accountability. Ultimately Sorabji posits that procedural codes should guide not only the process of litigation but those who design digital procedures and test their propriety in the future.
