Boustan, Alex P. Jassen, Calvin J. Roetzel, 2009-10-26 This volume analyzes the various and overlapping discourses of religious violence that emerged within Jewish and Christian culture in the Roman world Toward this end the nine papers collected here address both the presence of violence within the authoritative scriptural traditions of early Judaism and Christianity and the redeployment of these older traditions to represent legitimate and indeed sacralize violence Individual papers focus on the specific social and historical contexts from which these texts emerged while the volume as a whole highlights the patterns of textual practice shared across social and religious boundaries Throughout the dynamic interplay between text tradition and violence in early Jewish and Christian culture is located within the broad landscape of Roman imperial society Shakespeare and Republicanism Andrew Hadfield, 2005-07-21 This groundbreaking work first published in 2005 reveals exactly how Shakespeare was influenced by contemporary strands in political thought that were critical of the English crown and constitution Shakespeare has often been seen as a conservative political thinker characterised by an over riding fear of the mob Hadfield argues instead that Shakespeare's writing emerged out of an intellectual milieu fascinated by republican ideas From the 1590s onwards he explored republican themes in his poetry and plays political assassination elected government alternative constitutions and perhaps most importantly of all the problem of power without responsibility Beginning with Shakespeare's apocalyptic representation of civil war in the Henry VI plays Hadfield provides a series of powerful new readings of Shakespeare and his time For anyone interested in Shakespeare and Renaissance culture this book is required reading **Vinaya Texts: The Mahâvagga, V-X.
