Textual Strategies Perspectives In Post Structuralist Criticism:

Textual Strategies Josue V. Harari, 2019-06-30 A stellar cast of fifteen contributors seeks to show the direction in which continental and continentally oriented American literary criticism has evolved in recent years Nine of the essays are published here for the first time five of the remaining six were translated by the editor from the French only one has previously appeared in English The essays make available some of the most important and most representative work that has been done in the wake of structuralism Among the topics treated are the relationships between semiology and literature anthropology and literature and psychoanalysis and literature modern American poetics algebraic models as epistemological operators the modes of production of a poem Flaubert's view of history and poetic language Professor Harari has arranged the essays to move from the general to the particular and from the abstract to the concrete In an informative and ambitious introduction he discusses each essay in relation to the whole and explains the interrelationships among the various theories and strategies that are represented in the anthology A book meant for the specialist as well as the novice for the teacher of literature and criticism as well as the student *Textual Strategies* is a brilliant introduction to post structuralist critical theories and practices *Textual Strategies* Josué V. Harari, 1980 **Textual Strategies** Josue V. Harari, 1986 Jacques Derrida (Routledge Revivals) William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work It attempts to be comprehensive rather than selective listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991 and is extensively annotated It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy *The Strategy of Letters* Mette Hjort, 1993 Although literary theories describe a world of strategies textual discursive interpretive and political what is missing is the strategist Poststructuralists try to explain agency as the effect of large scale systems or formations as a result intuitions about individual action and responsibility are expressed in terms of impersonal strategies Mette Hjort's book responds to this situation by proposing an alternative account of strategic action one that brings the strategist back into the picture Hjort analyzes influential statements made by Derrida Foucault and others to show how proposed conceptions of strategy are contradictory underdeveloped and at odds with the actual use of the term Why then has the term acquired such rhetorical force Since strategy evokes conflict Hjort suggests its very use calls into question various pieties of idealism and humanism and emphasizes a desired break between modernism and postmodernism It follows that a theory of strategy must explore some of the psychological implications of conflict and Hjort pursues these implications through traditions as diverse as game theory discourse ethics and the philosophy of war Unstable frames self deception promiscuous pragmatism and social emotion are some of the phenomena she explores as she

develops her account of strategic action in the highly competitive domain of letters In her reflection on strategy Hjort draws on such literary examples as Troilus and Cressida Tartuffe the autobiographical writings of Holberg and early modern French and English treatises on theater For its well informed and incisive arguments and literary historical case studies this book will be invaluable to literary theorists and will appeal to readers interested in drama philosophy and literature aesthetics and theories of agency and rationality **Winged Words: Benjamin, Rosenzweig, and the Life of Quotation** Benjamin E.

Sax,2023-07-24 This is the first book to explore the role of quotation in modern Jewish thought Weaving back and forth from Benjamin to Rosenzweig the book searches for the recovery of concealed and lost meaning in the community of letters sacred scripture the collecting of books storytelling and the life of liturgy It also explores how the legacy of Goethe can be used to develop new strata of religious and Jewish thought We learn how quotation is the binding tissue that links language and thought modernity and tradition religion and secularism as a way of being in the world Methods of Rhetorical Criticism
