## Thailand At The Margins:

**Thailand at the Margins** Jim Glassman, 2004-03-04 Jim Glassman addresses the role of the state in the industrial transformation of what was before the economic crisis of 1997-98 one of Southeast Asia's fastest growing economies. Approaching this issue from a different angle to those dominating 1980s and 1990s debates about the role of states in East Asian growth, Glassman argues that the Thai state has been both proactive and interventionist in encouraging industrial transformation, contrary to what neo-liberals have asserted, but at the same time has not been a developmental state of the sort championed by neo-Weberian analysts of East Asia. Analyzing the Cold War period, the period of the economic boom as well as the economic crisis and its political aftershock, *Thailand at the Margins* recasts the story of the Thai state's post-World War II development performance by focusing on uneven industrialization and the interaction between internationalization and the transformation of Thai labour. *Thailand at the Margins* Jim Glassman, 1999. *Thailand at the Margins* Jim Glassman, 1999. **Financial Crisis and Resolutions in Thailand, 1997-2002**, 2002. *Flora of Thailand: pt. 1. The Border Patrol Police (BPP) of Thailand was formed as a United States CIA's paramilitary intelligence force in the early 1950s. In the early 1960s, changes in Thailand's political leadership and the US government's strategies for fighting the spread of communism in Southeast Asia led to a transformation of the BPP. The organization became a civic action agency supported by the US Agency for International Development and the Thai monarchy. Its civic actions, pinned on advancing anticommunist modernization, civilian counterinsurgency, and royalist nationalism, soon extended from the margins to the center of Thailand and contributed to building the border of Thainess (khwaen pen Thai). The growing tension between the royalist network, consisting of military and rightwing groups, and the democratization movements culminated in a massacre. On October 6, 1976, the Village Scout, a rural vigilante group that the BPP created through its civic actions, and the Police Aerial Reinforcement Unit (PARU), a subunit of the BPP, attacked peaceful protesters at Thammasat University. The success of a military coup on the same day solidified the victory of the royalist network, and it would continue to dominate Thai politics and society into the post-Cold War era. Through a study of the Border Patrol Police's transformations, *Indigenizing the Cold War* shows how the Thai ruling elite unfailingly pursued their nation-building. With an introduction of the indigenization concept and an in-depth analysis of postcolonial nation-building, this work challenges conventional Cold War studies. The Cold War in Thailand was not always and only about an ideological conflict between the communist and anticommunist. It was a war between the local ruling elite and the people, each pushing forward their visions for constructing a new nation-state. The indigenization framework helps one to see the

nature and impacts of the collaboration between global superpowers and the Asian local ruling elite it exposes an arrangement that took advantage of the American Cold War to legitimize and continue their authoritarian regimes *United States Court of International Trade Reports* United States.
