That Other Side Of Things:

The Other Side: Melinda's Story Starr Gardinier, 2015-09-18 Melinda's family is dead killed for information that is hidden deep within her mind. Her father tries to warn her from the Other Side that she is in danger from the killers who want what only she can give them. Committed to Skyview Haven she must determine if the Other Side truly exists or if it is a trick of her heart and mind. With time running out Melinda must determine who she can trust. Is it the ghosts of her family a boy who may not be who he appears to be or the doctor who is determined to cure her? Can she figure out the truth before it is too late?

Between Winnicott and Lacan Lewis A. Kirshner, 2011-03-25 D W Winnicott and Jacques Lacan are arguably two of the most important psychoanalytic theoreticians since Freud and somewhat ironically seemingly two of the most incompatible. Lewis Kirshner and his colleagues attempt to demonstrate how the intellectual contributions of these two figures such as Winnicott's self and Lacan's subject complement productively despite their apparent contrast. Throughout the book their major concepts are clarified and differentiated but always with an eye toward points of intersection and a more effective psychoanalytic practice. Furthermore these contributors address the Winnicott-Lacan relationship itself and the evolution of their respective theories peppered with detailed clinical examples of how integrations of their ideas have been utilized with patients directly.

The Other Side of Sober Elsie J.M. Page, 2017-10-30 Where are the police when you need them? Willie Masterson drove the streets of Winnipeg in a drunken state for 23 years and was never arrested. He often parked on the front street in front of his home and leaned on the horn waiting for Jessie or the children to come to help him get out of the car and into the house. He couldn't walk on his own but he could drive a car. Not until he ended up falling asleep at the wheel and rolling his car over into a ditch did he see any sign of the law. He hung upside down, trapped in his seat belt, screaming for help. A four-year-old child lay motionless and silent and out of his reach. He was terrified. Was the little fellow dead? Between sobs he vowed he would never drink again. He kept that promise but exchanged his drinking addiction for another one just as destructive: gambling. Once again Willie's addiction caused a lot of unhappiness for himself and those who loved him.

Claude Simon Alina Cherry, 2016-08-16 Claude Simon *Fashioning the Past by Writing the Present* considers the aesthetic cultural and philosophical facets of a temporal paradox in the works of French novelist Claude Simon 1913-2005 and its broader implications for the study of narrative and for cultural and post modern theory This paradox emerges from

the problematic representation of the past through an aesthetic rooted in an exclusive valorization of the present In his 1985 Nobel speech as well as on other numerous occasions Simon expressed a fascination with simultaneity through the provocative claim that he never wrote about the past but attempted to capture only what was happening during the writing process that is in the present of writing as he put it Simon s seemingly unambiguous claim raises significant issues and contradictions that become extensively apparent when the statement is considered in the light of his fictional works since these must be construed for the most part as explorations of the past In this study Alina Cherry propose to look at the tensions that arise from this paradox and examine the present of writing holistically that is both as a stylistic device and within the thematic context of Simon s works in order to assess its capacity for becoming an instrument of ontological and epistemological inquiry that can also intervene powerfully in the decisive philosophical and socio political debates that have animated the cultural landscape of post World War II France Simon s vivid portrayals of suffering and devastation open new ways of understanding the impact of some of the most traumatic historical events of the twentieth century the two World Wars and the Spanish Civil War This impact is necessarily connected with a need to tell these events and to tell them in highly innovative ways namely by creating a distinctive style that revolutionizes the outworn narrative traditions of a world whose very foundations have been shattered by the chaos of war and effectively undermines various institutions and dominant socio cultural structures revealing implicitly and explicitly a strong ethical vein
