Thatcherism Martin Holmes,1989-07-06 This book examines the pace of change and the nature of the Thatcherite revolution 1983 87 It draws on 30 interviews with ministers and officials and offers a critique of existing theories of Thatcherism The author assesses the progress of opposition to and future of policy Libya: The Struggle for Survival G L Simons,1993-05-13 Libya: The Struggle for Survival G. Simons,1996-07-26 This book charts in detail the West s response particularly that of the US to Libya s possible involvement in the bombing of the Pan Am airliner over Lockerbie in 1988 It suggests that this response cannot be fully understood without consideration of the United States as sole military superpower

in the New World Order Geoff Simons argues that the US decision to target Libya and to involve the UN in this policy has more to do with the realpolitik objectives of a hegemonic power than with the disinterested use of international law to combat terrorism The Lockerbie issue is set against a detailed history of Libya from the earliest times to the present with emphasis on Libya's colonial past the pivotal significance of Libya's oil resources the character of the Gaddafi revolution and the consequent impact on relations with the United States

Thatcher's Secret War Clive Bloom,2015-09-07 Scary but enlightening Christopher Stone Margaret Thatcher remains one of the United Kingdom's most polarising prime ministers This provocative investigation sheds light on the secret internal cold war that she waged against the enemy within everyone she could not see eye to eye with It was a campaign fuelled by paranoia on both the left and right of the political spectrum and fought with corruption black propaganda dirty tricks and even murder Expertly juxtaposing notable events with today's political arena this new and updated edition of Thatcher's Secret War surmises that although Thatcher's ideals seem to have vanished one remains the power and importance of the extra parliamentary state and its surveillance methods and hidden powers in a new age of terrorism
