Muller-Ortega,1989-01-01 This book explores one of the most explicit and sophisticated theoretical formulations of tantric yoga It explains Abhinavagupta s teaching about the nature of ultimate reality about the methods for experiencing this ultimate reality and about the nature of the state of realization a condition of embodied enlightenment The author uncovers the conceptual matrix surrounding the practices of the Kaula lineage of Kashmir Shaivism The primary textual basis for the book is provided by Abhinavagupta s Par tr ik laghuv tti a short meditation manual that centers on the symbolism of the Heart mantra SAU      *Texts and studies.* J. part of a cultural effort to shape the present by means of restructuring the past The often discordant voices of medieval authors allow modern historians to grasp something of the multiplicity of the early medieval world and of the disagreements conflicts idiosyncrasies and individual perceptions among the people who lived in that period Many contributions in this volume propose specific methods for studying changing identities They analyse differences between similar texts over time or specifically changes in texts in the course of their transmission The papers collected in this volume illustrate that texts were integral parts of a world in transformation
