*West of Everything* Jane Tompkins, 1993-04-29 A leading figure in the debate over the literary canon Jane Tompkins was one of the first to point to the ongoing relevance of popular women's fiction in the 19th century long overlooked or scorned by literary critics Now in *West of Everything* Tompkins shows how popular novels and films of the American west have shaped the emotional lives of people in our time Into this world full of violence and manly courage the world of John Wayne and Louis L Amour Tompkins takes her readers letting them feel what the hero feels endure what he endures Writing with sympathy insight and respect she probes the main elements of the Western its preoccupation with death its barren landscapes galloping horses hard bitten men and marginalized women revealing the view of reality and code of behavior these features contain She considers the Western hero's attraction to pain his fear of women and language his desire to dominate the environment and to merge with it In fact Tompkins argues for better or worse Westerns have taught us all men especially how to behave It was as a reaction against popular women's novels and women's invasion of the public sphere that Westerns originated Tompkins maintains With Westerns men were reclaiming cultural territory countering the inwardness spirituality and domesticity of the sentimental writers with a rough and tumble secular man centered world Tompkins brings these insights to bear in considering film classics such as *Red River* and *Lonely Are the Brave* and novels such as Louis L Amour's *Last of the Breed* and Owen Wister's *The Virginian* In one of the most moving chapters chosen for *Best American Essays* of 1991 Tompkins shows how the life of Buffalo Bill Cody killer of Native Americans and charismatic star of the Wild West show evokes the contradictory feelings which the Western typically elicits horror and fascination with violence but also love and respect for the romantic ideal of the cowboy Whether interpreting a photograph of John Wayne of meditating on the slaughter of cattle Jane Tompkins writes with humor compassion and a provocative intellect Her book will appeal to many Americans who read or watch Westerns and to all those interested in a serious approach to popular culture **A Distant**

**Drum...** Andi Rae Mills, 2011-09-15 We were riding on top of the world We were two women in our fifties and we probably should have been anywhere other than where we were at that moment The scenery was spectacular but I was beginning to wonder if it was worth dying for literally The loose rocks and tight switchbacks had cost us precious time This was not a place we wanted to get caught after dark Edie and I rode in silence as we negotiated the treacherous footing We had known we would face danger on this ride but I had never envisioned anything like the scenario we were currently dealing with My senses seemed cross wired At a time when I should have logically been bordering on panic I found myself engulfed in an eerie sense of calm Fear was a luxury we couldn't afford at the moment If we got off this mountain alive there would be plenty of time to be scared as we recalled the ordeal The trail was incredibly narrow The climb had been steep and rugged We would reach an altitude in excess of seven thousand four hundred feet as we rode the crest of Mt Francis On our immediate left a sheer rock wall rose vertically with occasional outcroppings that jutted into the trail Our knees at times

rubbed the craggy rock face A glance to the right brought no comfort A severe drop off afforded us a view of the tops of trees hundreds of feet below We were riding on a trail that was no more than a narrow ledge on the face of the mountain For some reason known only to them both horses insisted on walking along the extreme outer edge of the trail They seemed to feel more comfortable on the edge rather than being crowded by the wall Both Edie and I found ourselves sitting off center and leaning slightly toward the wall If our horses lost their footing we hoped to be able to jump clear of them and land on the trail A lump the size of a softball threatened to choke me each time I heard a piece of the trail crumble beneath our horse s feet sending rock and dirt tumbling over the edge We had reached a point of no return We had no idea what lay ahead of us there was no way to turn around no way to back the horses out of where we were and at this point dismounting was a physical impossibility due to the close proximity of the rock face and the narrow width of the trail We both knew that we were in a potentially life threatening situation If a cougar or a snake spooked the horses we would all have a one way ticket to the rocky bottom of the canyon far below That gruesome thought was still in my mind when our bad situation grew decidedly more complicated As I focused on the trail ahead my mind rejected what my eyes could clearly see Thirty feet ahead of us the trail simply disappeared All I could see beyond that point was air and lots of it I wondered if Edie who rode only a few feet behind me saw what I saw She did
