Staats-und Wirtschaftswissenschaften ,1998 **The Working Classroom** Matt Bromley,Andy Griffith,2023-11-08
 Schools do amazing work to support children from disadvantaged backgrounds But this book will enable them to do more
 Disadvantage comes in many forms but cultural poverty where some students have relative knowledge gaps compared with
 their more affluent peers can be addressed successfully by schools The Working Classroom explores how working class
 students are disadvantaged by a flawed system and what schools can do to close the gap Written by two experienced authors
 with a deep understanding of the challenges that poverty and low aspiration can bring and a passion for social justice The
 Working Classroom examines how and why we must seek systemic changes The book focuses on actions within the control of
 teachers and school leaders which will ensure that we create a socially just education system one that builds on the rich
 heritage of the working class rather than seeing their background as a weakness It offers practical ways for students and
 families to build on the best of working class culture whilst also empowering teachers students and parents to change the
 system The Working Classroom provides teachers with useful methods to improve the cultural capital of students from
 disadvantaged backgrounds that can be easily replicated and implemented in their own setting Backed up by practical case
 studies that have a proven impact in schools with high levels of deprivation this book will enable teachers to audit their
 current provision and encourage them to adopt new systems and practices so that they and the wider school will have a
 greater impact on the lives of working class students and their families Suitable for both teachers and leaders in a secondary
 school or sixth form college setting who seek to support social change in education and anyone in the corporate or non
 education world who wants to practice effective altruism or philanthropy *Sustainable and Resilient Global Practices*
 Torben Juul Andersen,2024-07-19 The chapters presented here by global scholars fill the void in current knowledge of how to
 generate effective strategic adaptation in times of abrupt environmental changes generating important leads for forthcoming
 scholarship efforts for the benefit of business and society **Dictionary Catalog of the Research Libraries of the New**
