It treats the topic of International Financial Accounting and Reporting as a subject in its own right and not as an alternative or an extension to the existing domestic regulatory framework. The book begins with an introduction to accounting and financial reporting followed by a description of the development of international standards and the present structure, role and operations of the International Accounting Standards Board. While a major part of the book is devoted to a discussion on individual IFRS International Financial Reporting Standards it also discusses income statements, balance sheets and cash flow statements. These financial statements are examined in the context of International Financial Reporting regulations and students are introduced to the main IFRS relating to those statements.
