The Enchanted Caribou Elizabeth Cleaver,1985 Three brave young hunters befriend a maiden who is then changed into a white caribou Knowing Their Place? Identity and Space in Children's Literature Terri Doughty,Dawn Thompson,2011-12-14 Traditionally in the West children were expected to know their place but what does this comprise in a contemporary globalized world Does it mean to continue to accept subordination to those larger and more powerful Does it mean to espouse unthinkingly a notion of national identity Or is it about gaining an awareness of the ways in which identity is derived from a sense of place Where individuals are situated matters as much if not more than it ever has In children s literature the physical places and psychological spaces inhabited by children and young adults are also key elements in the developing identity formation of characters and through engagement of readers too The contributors to this collection map a broad range of historical and present day workings of this process exploring indigeneity and place tracing the intertwining of place and identity in diasporic literature analyzing the relationship of the child to the natural world and studying the role of fantastic spaces in children s construction of the self They address fresh topics and texts ranging from the indigenization of the Gothic by Canadian mixed blood Anishinabe writer Drew Hayden Taylor to the lesser known children s books of George Mackay Brown to eco feminist analysis of contemporary verse novels The essays on more canonical texts such as Peter Pan and the Harry Potter series provide new angles from which to revision them Readers of this collection will gain understanding of the complex interactions of place space and identity in children s literature Essays in this book will appeal to those interested in Children s Literature Aboriginal Studies Environmentalism and literature and Fantasy literature
