Dès lors la variété actuelle des approches en architecture nous rend compte qu'est désormais tout de course sinon totalement discrédité.

Created by architects and artists these gardens were often conceived as tableaux in which plants played a role only as pigment or texture. This handsomely illustrated book by Dorothee Imbert presents for the first time in word and image a comprehensive study of these arresting architectonic gardens.

At Home in Postwar France Nicole C. Rudolph, 2015-03-01 After World War II France embarked on a project of modernization which included the development of the modern mass home. At Home in Postwar France examines key groups of actors: state officials, architects, sociologists and tastemakers, arguing that modernizers looked to the home as a site for social engineering and nation building. Designers and advocates of the modern home contributed to the democratization of French society and the French home of the Trente Glorieuses as it was built and inhabited was a hybrid product of architects, planners and residents' understandings of modernity. This volume identifies the right to comfort as an invention of the postwar period and suggests that the modern mass home played a vital role in shaping new expectations for well-being and happiness.
