**What Is a Fairy Tale?** Robyn Hardyman, 1900-01-01 Fairy tales have existed in every culture around the world teaching children stories of characters in imaginary worlds who undergo hardship but learn to overcome their difficult circumstances This compelling book covers the basic components that make up fairy tales as well as the purpose these fantastic tales serve in culture Some of the most famous fairy tales are retold in varying versions unique to different cultures followed by activities that help readers identify what these tales share in common and what sets them apart After learning the key elements of fairy tales readers are given a step by step guide to plan out their own magical characters setting and plot

**Fairy Tale** Marina Warner, 2018-02-13 From wicked queens beautiful princesses elves monsters and goblins to giants glass slippers poisoned apples magic keys and mirrors the characters and images of fairy tales have cast a spell over readers and audiences both adults and children for centuries These fantastic stories have travelled across cultural borders and been passed on from generation to generation ever changing renewed with each re telling Few forms of literature have greater power to enchant us and rekindle our imagination than a fairy tale But what is a fairy tale Where do they come from and what do they mean What do they try and communicate to us about morality sexuality and society The range of fairy tales stretches across great distances and time their history is entangled with folklore and myth and their inspiration draws on ideas about nature and the supernatural imagination and fantasy psychoanalysis and feminism In this Very Short Introduction Marina Warner digs into a rich hoard of fairy tales in all their brilliant and fantastical variations in order to define a genre and evaluate a literary form that keeps shifting through time and history Drawing on a glittering

array of examples from classics such as Red Riding Hood Cinderella and The Sleeping Beauty the Grimm Brothers Hansel and Gretel and Hans Andersen s The Little Mermaid to modern day realizations including Walt Disney s Snow White Warner forms a persuasive case for fairy tale as a crucial repository of human understanding and culture **ABOUT THE SERIES** The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **The Fairy Tale** Steven Swann Jones,2002 First Published in 2003 Routledge is an imprint of Taylor Francis an informa company **Magic Carpet Ride** Joan Vydra,Ann Lupkowski-Shoplik,2005 This complete guide to fairy tales is sure to be a student s favorite These timeless stories provide an excellent place to begin an in depth analysis of story development Stimulating projects give students additional opportunities to apply creativity and develop language skills **Grades 1-3 Fairy Tales** Ruth B.
