*Globalisation and Education Policy Reform in Botswana* Richard Tabulawa, 2023-07-21 This book uses the global local dialect approach to explicate education policy reform in Botswana and interrogates the practical effects of the various

education policies on curriculum pedagogy and governance of the Botswana General Education system Considering the effect of three reform policies since Botswana's Independence in 1966 the book evaluates the performance of each of the policies and examines their consequences in terms of the interplay of global forces and domestic pressures The result of this interplay has been an education landscape that while reflecting globally circulating education discourses markedly differs from those same discourses The book argues that the State in Botswana has appropriated education policy to legitimate itself in times of crisis and that each policy has improved access to general education but collectively have failed to improve its quality making suggestions for how this can be improved in the future As the first book of its kind to delve into education in Botswana from a single authored critical lens the book will be a highly relevant reading for academics researchers and post graduate students of African education comparative education education policy and curriculum studies

This report presents research findings about the intellectual political and organizational processes that have shaped government and donor policies and projects concerned with promoting the education of women and girls in Malawi Tanzania and Zimbabwe The study seeks to assess the extent to which gender interventions in education have been donor driven The growing concern about large and persistent gender inequalities in education has led to the development of a number of initiatives on the part of multilateral and bilateral aid agencies aimed at encouraging the participation of women and girls in education Despite this concern efforts to reduce gender inequalities on the part of both governments and donor agencies have been uneven and policy interventions have evolved in a piecemeal fashion In order to explore the reasons for the limited progress that has been made in improving girls education in most developing countries this study focuses on policy formulation and implementation with respect to girls education in the three low income African countries Contains approximately 180 references BT      *A Preliminary Select Bibliography of Education for Black South Africans and Related Topics* Peter Kallaway, Jackie Kallaway, 1983
