Evans, Neil J Anderson, William G. Eggington, 2015-06-12 *ESL Readers and Writers in Higher Education* describes the challenges ESL students in U S postsecondary institutions face when studying in a second language and offers suggestions for how teachers advisors tutors and institutions might provide support that meets the reading and writing needs of this very important student population Because the ESL profession as a whole including what professionals are doing in the classroom sits under the umbrella of an institutional response to a language related challenge some solutions aimed at helping students achieve optimal proficiency lie outside of the classroom As such this book is based on the assertion that language development support is not the sole responsibility of language teachers Everyone on campuses that hosts ESL students bears some responsibility for these
