*Interests, Institutions, and Information* Helen V. Milner, 1997-09-18 The interaction of the domestic actors preferences given their political institutions and levels of information defines when international cooperation is possible and what its terms will be. Several test cases examine how this argument explains the phases of a cooperative attempt the initiation the negotiations at the international level and the eventual domestic ratification *International Relations: A European Perspective* Mario Telò, 2016-04-22 International Relations A European Perspective presents the main schools of international relations while underlining the added value of the European approach. Contrary to US or East Asian perspectives a European viewpoint adopts a critical approach to traditional cleavages. The author demonstrates the added value of a European approach to international relations taking into account both the shortcomings and achievements found within European history and current European unity. Key themes include the evolution of state sovereignty regional cooperation between previous enemies political impact of economic integration regimes building international rule setting institutionalization of international relations and the weight of ideas and perceptions by transnational cooperation. This comprehensive assessment takes into consideration every school of international relations critically presented from this original perspective and as such makes the book ideal for courses on international relations

**Russian-Belarusian Integration** Alex Danilovich, 2018-02-06 Russian domestic politics has long been both labyrinthine and pragmatic at once both inordinately complex and breathtakingly dynamic. The same can be said of Russia's foreign policy in particular in relations with former Soviet republics. Any study of Russian foreign policy comes back to the intriguing question of why Russia long perceived as an inveterate imperial power would refuse to take back a handsome portion of its former empire a portion that offers a bridge to Europe and an advantageous geostrategic position. Despite formal declarations Russia has made little progress in achieving union with its ex Soviet neighbour Belarus. Linking Russia's foreign policy to its domestic politics Alex Danilovich clarifies this paradox and explains why specific attempts to reunify Russia and Belarus failed contrary to the desires of significant forces on both sides and to certain theory based expectations *Globalization against Democracy* Guoguang Wu, 2017-04-27 This book explores how global capitalism has reconfigured state market relations and how interactions among capital labor and consumption threaten democracy. It is for specialists in political economy political science economics sociology international relations and development studies and for supplemental use on undergraduate and graduate courses on globalization

capitalism development and democracy **The Determinants of Leadership** Fei Su, 2022-08-25 This book investigates the determinants of leadership in East Asia emphasizing the significance of followership in the success and failure of leadership projects proposed by China Japan and the United States. While doing so it answers a central question in the field of international relations Why do potential leader countries succeed in obtaining potential followers in some instances but fail to do so in other instances. Employing an inclusive leadership and societal approach the book investigates how the leading

countries motivate followership in East Asian economic and security dynamics. It analyzes how Chinese, Japanese and American leadership obtained acceptance from potential followers focusing on the significance of domestic politics of potential follower countries in shaping their governmental preferences and generating followership. The book features empirical evidence in six case studies covering topics such as the successful Chinese endeavor of South Korea joining the Chinese initiative for the Asian Infrastructure and Investment Bank (AIIB), the failed US attempt to prevent South Korea from doing so, the US's success to convince Japan to join the Trans Pacific Partnership (TPP), the failed Japanese strive for winning South Korea's support for Japan's bid for a permanent seat at the UN Security Council (UNSC), the Chinese failure at obtaining the Philippines' backing of the Chinese aspirations in the South China Sea (SCS) during the Aquino Presidency, and finally the Chinese success one the same effort during the Duterte presidency. The book will appeal to students, scholars and researchers of international relations interested in a better understanding of leadership determinants in East Asia Global Power Shift foreign policy as well as East Asian economic and security dynamics.
