MACHINE SERIAL NUMBER

The correct serial number is stamped on the serial number plate which is located inside the operator's cab. The serial number should always be recorded when ordering parts for the machine or when communicating with the distributor or factory concerning the machine. Providing the correct number is the only way of ensuring the correct parts receive immediate attention.

In the event the serial number plate is not reading, a number is stamped on the upper center of the plate that can be used to identify the number. The number is stamped just below the front-most registration marking line.

Machine Serial Number

The serial number is stamped on the machine identification plate. The machine identification plate is located at the operator's station on the right side and above the right console. The machine serial number should also be furnished when ordering parts for the machine, or when corresponding with the distributor or factory regarding the machine. The serial number is the only method the distributor or factory has of ensuring that the correct parts will be furnished.

In the second the serial numbers can either form a single continuous sequence, or a sequence of several distinct numbered blocks. The former is the preferred method for large-scale applications involving large numbers of serial numbers. The latter can best be used to identify the sequence.
