The Criminal Code:

The Concept of Genocide in International Criminal Law Marco Odello, Piotr Łubiński, 2020-07-14 This book presents a review of historical and emerging legal issues that concern the interpretation of the international crime of genocide The Polish legal expert Raphael Lemkin formulated the concept of genocide during the Nazi occupation of Europe and it was then incorporated into the 1948 Convention on the Prevention and Punishment of the Crime of Genocide This volume looks at the issues that are raised both by the existing international law definition of genocide and by the possible developments that continue to emerge under international criminal law The authors consider how the concept of genocide might be used in different contexts and see whether the definition in the 1948 convention may need some revision also in the light of the original ideas that were expressed by Lemkin The book focuses on specific themes that allow the reader to understand some of the problems related to the legal definition of genocide in the context of historical and recent developments As a valuable contribution to the debate on the significance meaning and application of the crime of genocide the book will be essential reading for students and academics working in the areas of Legal History International Criminal Law Human Rights and Genocide Studies Chapter 12 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com/books/e/9781003015222>

The German Criminal Code ,2008-07-03 German substantive criminal law has been influential in many civil law countries most notably in the Hispanic world In the common law countries not surprisingly because of the systemic differences in approach its impact has been much less if not negligible This may be largely explained as a result of the language barrier An up to date and reliable English translation of the German Criminal Code has been conspicuously missing for some time This book presents a new English translation of the Strafgesetzbuch the Criminal Code in its most recent amended form of August 2007 The Code is the centrepiece of German substantive criminal law and informs the interpretation and application of any other criminal

provisions which can be found in specific legislation The translation thus affords an opportunity to profit from a legal tradition that has had a major influence over history and has a rich experience of doctrinal analysis The translation adheres as closely as possible to the textual structure of the original but has been made palatable to an English ear It is intended as a companion to the author's Principles of German Criminal Law which was published in December 2008 Please click on the link below for further details www.hartpub.co.uk/books/details.asp?isbn=9781841136301
