Christianity and Cosmic Consciousness Alexis Georg Hoen, 2015-02-20 Born in the Ukraine, educated in Munich and having practiced medicine in the United States, author Alexis Georg Hoen has been exposed to widely differing political systems and religious beliefs and he has always maintained an interest as to the origin of these beliefs and their relation to the innermost nature of man. In Christianity and Cosmic Consciousness he interprets the words and the sacrifice of Jesus as pointing the way toward a realization of our innermost nature—the will to live and love that exists within all. Sharing his experiences and ideas about Christ's words and sacrifices, Hoen uses personal anecdotes and biblical examples to illustrate the nature of Christian belief. He provides a host of examples including key illustrations from the Bible and relevant source material from other writers who address this topic. He shows us that through sacrifice we live in and for others. That is eternal life. Christianity and Cosmic Consciousness represents the core of Christian teaching without resorting to the supernatural and miraculous yet does not try to disprove it.

[Cosmic Consciousness - facsimile edition](#) Dr. Richard Maurice Bucke,2007-05-04 There is an ages old unexplained mystery of genius and enlightenment Many people talk of seeing the light as a temporary intense affair where all the world's knowledge and understanding is unveiled to an individual in a brief moment outside of time Bucke himself

experienced this unique state in 1876 And spent the rest of his life working out how to understand and apply what he had learned in that instant Bucke provides three dozen very consistent examples of cosmic consciousness Some of these were contemporary case histories which he collected Bucke proposed that these enlightened figures are evolutionary jumps the predecessor of a more advanced species His 1901 final work was the masterpiece of an eclectic genius whose life encompassed medical science and mystical transcendence and posits a higher form of sentience that only a few humans have ever achieved This is a facsimile reproduction of Bucke s original work Get Your Copy Now **Cosmic Consciousness** M. D. Richard Maurice Bucke, 2011-03 Cosmic Consciousness A Study in the Evolution of the Human Mind is Richard Bucke s theory that our mental states are evolving and that to date we have experienced three stages in the development of consciousness the simple consciousness of animals the self consciousness of the vast majority of humans reason self awareness imagination etc and in some cases cosmic consciousness a mystical state of being beyond self consciousness and the next stage of human development Bucke hypothesized that cosmic consciousness is slowly beginning to appear in humans and will eventually spread widely throughout the human race He posited that certain notable individuals throughout history have demonstrated that they have attained cosmic consciousness In the book he cites examples such as Jesus Buddha Mohammed Dante St Paul Francis Bacon William Blake and his close friend Walt Whitman Whitman an American poet and journalist described cosmic consciousness as ineffable light light rare untellable light beyond all signs descriptions and languages At the age of thirty five Bucke found himself in this elevated mental state and he describes in the third person the manifestations leading up to it 1 The person suddenly without warning has a sense of being immersed in a flame or rose colored cloud or perhaps rather a sense that the mind is itself filled with such a cloud of haze 2 At the same instant he is as it were bathed in an emotion of joy assurance triumph salvation 3 Simultaneously or instantly following the above sense and emotional experiences there comes to the person an intellectual illumination quite impossible to describe Like a flash there is presented to his consciousness a clear conception a vision in outline of the meaning and drift of the universe He does not come to believe merely but he sees and knows that the cosmos which to the self conscious mind seems made up of dead matter is in fact far otherwise is in very truth a living presence He sees that instead of men being as it were patches of life scattered through an infinite sea of non living substance they are in reality specks of relative death in an infinite ocean of life He sees that the life which is in man is eternal as all life is eternal that the soul of man is as immortal as God is that the universe is so built and ordered that without any peradventure all things work together for the good of each and all that the foundation principle of the world is what we call love and that the happiness of every individual is in the long run absolutely certain He goes on to say The person who passes through this experience will learn in the few minutes or even moments of its continuance more than in months or years of study and he will learn much that no study ever taught or can teach After reading Bucke s writings P D Ouspensky the respected Russian Philosopher echoed his comments in his book *Tertium*
