The Costs Of Economic Liberalization In Turkey:

The Costs of Economic Liberalization in Turkey Mehmet Odekon,2005 This book's main theme is that the neoliberal economic policies forced on developing countries by the International Monetary Fund and the World Bank serve the interests of Western industrial countries more than those of developing countries as the post 1980 Turkish experience illustrates. Within a simple dependency oriented framework the book presents the effects of liberalization policies in Turkey. These policies were mostly concerned with allocative efficiency disregarding distributional efficiency issues. The results were not always socially or politically desirable. These policies consistently favored capital over labor and created an economic system that made the rich richer and the poor poorer. Privatization in the name of raising allocative efficiency contributed to increasing inequality and poverty. Anti inflationary policies, debt reduction schemes, environmental policies and agricultural reforms all favored the interests of high income groups transferring surplus from the national metropolis to the international metropolis or by restructuring the developing countries output input and financial markets so that any exchange between developing and industrial countries would

Economic Liberalization and Turkey Sübidey Togan,2010-04-05

The liberalization of the Turkish economy is a key factor affecting Turkey's application to join the European Union. This book examines the impact of economic liberalization in Turkey and Turkey's approach to the elimination of barriers to trade. It focuses on the liberalization of trade in Turkey's agricultural and industrial commodities sector and key services such as telecommunications, electricity, natural gas, banking and transport. The chapters include thorough discussions on WTO and EU approaches for the elimination of barriers to trade, international and EU rules and regulations in the various service sectors and the methods for estimating the tariff equivalents of barriers to trade in the different service sectors as well as methods for estimating the benefits of liberalization of services for Turkey. The experience of Turkey, its approach to liberalization and its measures to eliminate barriers to trade serve as a useful model for other neighboring countries of the European Union.
