The Course of American Democratic Thought Ralph Henry Gabriel,1943 **The Course of American Democratic Thought** Ralph Henry Gabriel,1940 *The Course of American Democratic Thought. 2nd Ed* Ralph Henry Gabriel,1956

American Reformers, 1870-1920 Steven L. Piott,2006-03-07 In this new engaging work historian Steven L Piott explores the fascinating and provocative lives of twelve influential American reformers of the Gilded Age Populist and Progressive eras From Ida B Wells to Louis Brandeis Jane Addams to Charles Macune Piott examines the diversity of ideas and approaches that characterized this dynamic period He links these men and women together in the greater context of the reform era and explores the social ideologies that united the reform spirit in America following Reconstruction Designed with students in mind *American Reformers* provides a thought provoking introduction to some of the most influential and forward thinking minds of the reform era *Socialism and American Life, Volume I* Donald Drew Egbert,2015-12-08 Easily the most comprehensive and useful work on American socialism including its history theories and impact on life culture and economic and political parties in the United States is as important a contribution as the essays Hereafter students of practically all phases of American life will turn to it for help and guidance U S Quarterly Book Review Originally published in 1952 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Essays in the History of Economics* William Henderson,Kirk D. Johnson,Marianne F. Johnson,Warren J. Samuels,2004-05-20 Under the impressive editorship of Warren Samuels et al this book addresses the state of the history of economic thought today A relevant and important contribution to economics that will develop an unsurprising number of fans **The Presidencies of Zachary Taylor & Millard Fillmore** Elbert B. Smith,1988 In this book Elbert B Smith disagrees sharply with traditional interpretations of Taylor and Fillmore the twelfth and thirteenth presidents from 1848 to 1853 Smith argues that Taylor and Fillmore have been seriously misrepresented and underrated They faced a terrible national crisis and accepted every responsibility without flinching or directing blame toward anyone else Publisher *A Shameful Business* James A. Gross,2011-02-23 In a book that confronts the moral choices that U S corporations make every day in the treatment of their workers James A Gross issues a clarion call for the transformation of the American workplace based on genuine respect for human rights rather than whatever the economic and regulatory landscape might allow Gross questions the nation s underlying fabric of values as reflected in its laws and our assumptions about workers and the workplace Arguing that our market philosophy is incompatible with core principles of human rights he forces readers to realign the country s labor policies so that they conform with the highest international human rights

standards To make his case Gross assesses various aspects of U S labor relations freedom of association racial discrimination management rights workplace safety and human resources through the lens of internationally accepted human rights principles as standards of judgment His findings are chilling Employers who maintain workplaces that require men and women and sometimes even children to risk their lives and endanger their health and eyes and limbs in order to earn a living are treating human life as cheap and are seeking their own gain through the desecration of human life Gross argues and such behavior should be considered as crimes against humanity rather than matters of efficiency productivity or morale By revealing how truly unacceptable management s best practices can be when considered as human rights issues A Shameful Business encourages a bold new vision for workers whether organized or not that would signify a radical rethinking of social values and the concept of workplace rights and justice in the courtroom the boardroom and on the shop floor

A History of American Life and Thought Nelson Manfred Blake,1971 Child abuse and neglect also known as child maltreatment is a confronting reality for many Australians Children often experience different forms of maltreatment in combination whether they be physical sexual emotional psychological abuse or neglect What are the signs of abuse and how to protect the vulnerable

The Course of American Democratic Thought ... Second Edition Ralph Henry GABRIEL,1956 *The Presbyterian Controversy* Bradley J. Longfield,1993-11-25 From 1922 to 1936 the Presbyterian Church in the U S A was torn by conflict Fundamentalists led by Clarence E Macartney William Jennings Bryan and J Gresham Machen modernists guided by Henry Sloane Coffin and moderates directed by Charles R Erdman and Robert E Speer struggled over theological questions and their implications for such issues as ordination requirements the role of Princeton Theological Seminary and foreign missions The church managed to maintain its institutional unity at the height of the conflict in the mid 1920s but the struggle resulted in a loosening of the church s doctrinal standards the reorganization of Princeton Seminary the founding of Westminster Theological Seminary and the eventual birth of the Presbyterian Church of America Weaving together the history of this ecclesiastical conflict with biographies of the six leaders Longfield shows that theological concerns though primary were not the only issues in the struggle He demonstrates that social and cultural considerations profoundly contributed to the roles of the leaders and to the outcome of the conflict Finally Longfield traces the current decline of the Presbyterian Church and other mainline denominations back to this period arguing that by embracing doctrinal pluralism they undermined the very foundations of their mission to the world He concludes that renewal can only be based on a biblical and creedal faith distinct from the values and norms of the surrounding culture
