The Crime Industry:

The Crime Industry John A. Mack, Hans-Jürgen Kerner, 1975 *Business and the Risk of Crime in China* Roderic G. Broadhurst, John Bacon-Shone, Brigitte Bouhours, Thierry Bouhours, 2011-12-01 The book analyses the results of a large scale victimisation survey that was conducted in 2005/06 with businesses in Hong Kong Shanghai Shenzhen and Xi'an. It also provides comprehensive background materials on crime and the criminal justice system in China. The survey which measured common and non-conventional crime such as fraud, IP theft and corruption is important because few crime victim surveys have been conducted with Chinese populations and it provides an understanding of some dimensions of crime in non-western societies. In addition, China is one of the fastest growing economies in the world and it attracts a great amount of foreign investment; however, corruption and economic crimes are perceived by some investors as significant obstacles to good business practices. Key policy implications of the survey are discussed.

The Private Sector and Organized Crime Yuliya Zabyelina, Kimberley L. Thachuk, 2022-09-02 This book contributes to the literature on organized crime by providing a detailed account of the various nuances of what happens when criminal organizations misuse or penetrate legitimate businesses. It advances the existing scholarship on attacks, infiltration and capture of legal businesses by organized crime and sheds light on the important role the private sector can play to fight back. It considers a range of industries from bars and restaurants to labour-intensive enterprises such as construction and waste management to sectors susceptible to illicit activities including transportation, wholesale and retail trade and businesses controlled by fragmented legislation such as gambling. Organized criminal groups capitalize on legitimate businesses beleaguered by economic downturns, government regulations, natural disasters, societal conflict and the COVID-19 pandemic. To survive, some private companies have even become the willing partners of criminal organizations. Thus, the relationships between licit businesses and organized crime are highly varied and can range from victimization of businesses to willing collusion and even exploitation of organized crime by the private sector, albeit with arrangements that typically allow plausible deniability. In other words, these relationships are highly diverse and create a complex reality which is the focus of the articles presented here. This book will appeal to students, academics and policy practitioners with an interest in organized crime. It will also provide important supplementary reading for undergraduate and graduate courses on topics such as transnational security issues, transnational organized crime, international criminal justice, criminal finance, non-state actors, international affairs, comparative politics and economics and business courses.

Business Criminal Law Lukas Staffler, 2021-12-14 This textbook deals with business criminal law from the perspective of Germany, Austria, Liechtenstein and Switzerland. It primarily addresses students in business and economics master's programmes as well as business practitioners but is also meant for lawyers and law students. As criminal law legislators exert considerable influence on economic life, raising and growing awareness in the area of criminal law seems compulsory for future managers and executives. This textbook approaches the legal field less normatively and rather in a

practical and entrepreneurial way Its contents are based on the master level class Business Criminal Law at MCI The Entrepreneurial School taught by the author This textbook has been recommended and developed for university courses in Germany Austria and Switzerland
