*The Cross, Its History & Symbolism* George Willard Benson,1934      **The Cross** George Willard Benson,2013-10 This is a new release of the original 1934 edition      **“The” Cross** George Willard Benson,1976      The Cross George Willard

Benson,1983      **The Cross: Its History [and] Symbolism** George Willard Benson,1976      *The Cross* George Willard Benson,1934      **The Cross** George Willard Benson,2013-02-20 Centuries before the Christian era crosses were used as

pagan emblems Early Christians did not employ the symbolism of the cross which came into general use three centuries after the death of Jesus and has since come to be recognized around the world as a symbol of sacrifice and redemption This fascinating book begins with legends and proceeds to an exploration of the many facts myths and curious customs and superstitions connected with the history of the cross In simple direct language this volume recounts the notable events and stories of people whose lives are interwoven with the symbol of the cross such as the crusaders who wore heraldic crosses as emblems of valor and bravery Numerous illustrations depict the variety of forms and uses of the cross as well as the symbols that appear upon many crosses and the text traces their similarity and significance to the symbolism found in religious paintings mosaics and stained glass The history the legends and the art and symbolism with which the cross is intimately connected form the keynote of this study which is presented in a reverent spirit and a manner accessible to readers of every background

**In His Name** E. Christopher Reyes,2010-05 Many devout Christians will not like this book as I have discovered that they are neither interested nor concerned with anything which challenges their long taught beliefs I did not make history but merely write on its historical significance in the events of mankind For those truth seekers who are interested in the Why regarding religious beliefs this book offers a genesis of Christian beliefs Religion is a multi million dollar a year business and world wide that figure runs into the billions Is the true nature of faith focused on mankind or merely a financial endeavor Extraordinary care has been taken to present the good and the bad as well as the ugly side of religion

**The Symbolism of the Cross** René Guénon,2001 The Symbolism of the Cross is a major doctrinal study of the central symbol of Christianity from the standpoint of the universal metaphysical tradition the perennial philosophy as it is called in the West As Gu non points out the cross is one of the most universal of all symbols and is far from belonging to Christianity alone Indeed Christians have sometimes tended to lose sight of its symbolical significance and to regard it as no more than the sign of a historical event By restoring to the cross its full spiritual value as a symbol but without in any way detracting from its historical importance for Christianity Gu non has performed a task of inestimable importance which perhaps only he with his unrivalled knowledge of the symbolic languages of both East and West was qualified to perform Although The Symbolism of the Cross is one of Gu non s core texts on traditional metaphysics written in precise nearly geometrical language vivid symbols are necessarily pressed into service as reference points how else could the mind ascend the ladder of analogy to pure intellect Gu non applies these doctrines more concretely elsewhere in critiquing modernity

in such works as The Crisis of the Modern World and The Reign of Quantity and the Signs of the Times and invokes them also to help explain the nature of initiation and of initiatic organizations in such works as Perspectives on Initiation and Initiation and Spiritual Realization Hidden Religion Micah Issitt,Carlyn Main,2014-09-16 Covering secret societies mysterious ancient traditions and the often mistaken history of the world's religious symbols this book takes readers on a tour through the fascinating world of religious symbolism and reveals the most mysterious and misunderstood facets of religion Hidden Religion The Greatest Mysteries and Symbols of the World's Religious Beliefs not only explores the history and origins of widely recognizable symbols like the Christian cross and the Star of David but also introduces readers to more obscure symbols from religious traditions around the world even defunct ones like those of the ancient Aztec and Mayan societies In addition the book discusses the religious secrets found in the major religions including secret societies of Christianity Judaism Islam and Buddhism Containing more than 170 entries the encyclopedia is organized by religious category such as Abrahamic East Asian and African Diasporic religions then alphabetically within each category Each entry is prefaced with a short introduction that explains where and when the religious tradition originated and describes the religion today This information is followed by an analysis of the historical development and use of symbols along with an explanation of connections between symbols used by different religions such as shared astrological symbolism in the form of moon sun or star motifs The Cross, Its History & Symbolism George Willard Benson,1976 The Library News-letter ,1897 A Handbook of Christian Symbols and Stories of the Saints as Illustrated in Art Clara Erskine Clement Waters,1886

**Monumental Christianity, Or, The Art and Symbolism of the Primitive Church** John Patterson Lundy,1876

**The Westminster Review** ,1898 Faith Symbols Nakoa Rainfall,Al,2025-02-27 Faith Symbols explores the profound impact of spiritual emblems and sacred icons throughout history revealing how they shape belief systems and cultural identities across diverse religions These aren't mere decorations they're active agents influencing behavior and reinforcing ideologies The book examines how symbols act as tangible representations of intangible concepts bridging the gap between the earthly and divine realms The book begins by establishing a framework using semiotics religious studies and art history It then progresses to case studies delving into specific symbols such as the cross in Christianity and the Om in Hinduism tracing their historical trajectories and varied interpretations Drawing from archaeological findings religious texts and anthropological studies the book adopts a comparative approach highlighting both the unique characteristics of individual symbols and the common threads that connect them across diverse cultural contexts By understanding this symbolic language readers can foster intercultural understanding and promote religious tolerance gaining a deeper appreciation for the diversity of human spiritual experience DR. WILLIAM SMITH'S DICTIONARY OF THE BIBLE; COMPRISING ITS ANTIQUITIES, BIOGRAPHY, GEOGRAPHY, AND NATURAL HISTORY. ,1872 Symbols of Faith Oliver Faith,Al,2025-02-14 Symbols of Faith explores the profound world of religious symbolism across diverse spiritual traditions It delves into how

these symbols shape belief ritual and religious experience acting as a primary language of faith that communicates doctrines and shared identities The book highlights the dual nature of symbols showing their ability to represent complex theological concepts visually and evoke deep emotional and spiritual responses For instance the cross carries significance beyond its common interpretations and the Star of David holds deeper meanings The book is structured in three parts starting with core concepts in symbology and methodologies for interpreting symbols It then moves to in depth analyses of prominent symbols from Christianity Islam Judaism Hinduism Buddhism and indigenous religions examining their historical context theological significance and cultural variations Finally it synthesizes these analyses to reveal universal themes and patterns offering practical applications for interfaith dialogue and personal spiritual exploration What sets this book apart is its interdisciplinary approach emphasizing symbols as active agents in shaping religious experience not just representations of abstract ideas Symbols of Faith provides a framework for understanding and interpreting religious symbols inviting readers to engage critically and form their own informed opinions      **The Popular Science Monthly** ,1890      The Month: A Catholic Magazine and Review Lieut.-Col.
