**Unsettling Colonial Modernity in Islamicate Contexts** Kara Adbolmaleki, Roxana Akhbari, Siavash Saffari, 2017-05-11

By focusing on colonial histories and legacies this edited volume breaks new ground in studying modernity in Islamicate contexts. From a range of disciplinary perspectives the authors probe colonial modernity as a condition whose introduction into Islamicate contexts was facilitated historically by European encroachment into South Asia, the Middle East and Northern Africa. They also analyze the various modes through which in Europe itself and in North America by extension people from Islamicate contexts have been and continue to be otherized in the constitution and advancement of the project of modernity. The book further brings to light a multiplicity of social, political, cultural and aesthetic modes of resistance aimed at subverting and unsettling colonial modernity in both Muslim majority and diasporic contexts.

**Sectarianism in Iraq** Khalil Osman, 2014-10-10

This book links sectarianism in Iraq to the failure of the modern nation state to resolve tensions between sectarian identities and concepts of unified statehood and uniform citizenry. After a theoretical excursus that recasts the notion of primordial identity as a socially constructed reality the author sets out to explain the persistence of sectarian affiliations in Iraq since its creation following the dismemberment of the Ottoman Empire. Despite the adoption of homogenizing state policies the uneven sectarian composition of the ruling elites nurtured feelings of political exclusion among marginalized sectarian groups the Shicites before 2003 and the Sunnis in the post 2003 period. The book then examines how communal discourses in the educational curriculum provoked masked forms of resistance that sharpened sectarian consciousness. Tracing how the anti-Persian streak in the nation state's Pan Arab ideology which camouflaged anti-Shic平ism undermined Iraq's national integration project. Sectarianism in Iraq delves into the country's slide from a totalizing Pan Arab ideology in the pre-2003 period toward the atomistic impulse of the federalist debate in the post-2003 period. Employing extensive fieldwork this book sheds light on the dynamics of political life in post-Saddam Iraq and is essential reading for Iraqi and Middle East specialists as well as those interested in understanding the current heightening of sectarian Sunni-Shiite tensions in the Middle East.

Well considered answers to the many questions raised by the situation in Iraq past and present are rare. This first comprehensive, thematically organised bibliography devoted to Iraq is based on the full Index Islamicus database and is drawn from a wide variety of European language journals and books. Featuring an extensive introduction to the subject and its literature by Peter Sluglett this bibliography will help readers to find their way through the massive secondary literature now available. Following the pattern established by the Index Islamicus both journal articles and book publications are included as well as important internet resources. The editors have taken care to add much new material to bring its coverage up to date and supplement the previously published volumes while the most important and/or influential publications are conveniently
