Troublemakers Leslie Berlin, 2017-11-30 THE FINANCIAL TIMES BUSINESS BOOK OF THE MONTH THE GRIPPING TALE OF THE EARLY FRONTIER DAYS OF SILICON VALLEY FROM ACCLAIMED HISTORIAN LESLIE BERLIN The book is compelling as it maps out the building of the Valley the challenges its early tech pioneers faced as well as highlighting those who reached dizzying success only to suffer as the dot com bubble burst Financial Times Kaleidoscopic ambitious and brilliant the book draws on a dazzling cast of characters to chart the rise of the five industries that have come to define technology today and collectively to remake the world Eric Schmidt former CEO of Google and Executive Chairman of Alphabet Inc Leslie Berlin's previous work has been acclaimed by the New York Times so engagingly narrated that you don't realize how much business and technology you are learning along the way Between 1968 and 1976 five landmark industries that shaped the modern world were launched within 30 miles of each other personal computing video games biotechnology modern venture capital and advanced semi conductor logic The dominant players in many of those industries firms like Apple and Intel had also been launched at the same time During those early days of Silicon Valley the first ARPANET transmission now known as the Internet came into a Stanford lab universities began licensing innovations to businesses and the Silicon Valley tech community began to develop their lobbying clout Now for the first time the stories of the men and women who changed the world during these pivotal years are brought to life in rich detail by respected Silicon Valley historian Leslie Berlin Berlin shines a light on the wild frontier days of Silicon Valley where the old rules were broken revealing how the modern tech world was built and empires were forged *Troublemakers* is a compelling story of the upstarts of Silicon Valley that will appeal to fans of HBO's *Silicon Valley* and Walter Isaacson's biography of Steve Jobs Further praise for *Troublemakers* Leslie Berlin combines the keen observations of an historian with gorgeous writing and riveting storytelling to write the landmark book on the Valley The interwoven lives of wonderfully iconoclastic characters bring the formative years of the Valley to life with sheer brilliance *Troublemakers* is a must read for anyone hoping to understand America's tech capital Julia Flynn Siler New York Times bestselling author of *The House of Mondavi* Leslie Berlin has done it again Following on her richly informative biography of Intel co founder Robert Noyce *The Man Behind the Microchip* Berlin now brings us a definitive account of Silicon Valley's breakthrough years in the 1970s *Troublemakers* recounts the fascinating careers of seven little known but enormously impactful players who shaped the Valley's unique high tech ecosystem As entertaining as it is authoritative *Troublemakers* is required reading for anyone seeking to understand how the tech revolution took root in the San Francisco Bay Area and eventually transformed the entire planet's way of life David M Kennedy Donald J McLachlan Professor of History Emeritus at Stanford University winner of the Pulitzer Prize **Neural Networks for Natural Language Processing** S., Sumathi, M., Janani, 2019-11-29 Information in today's advancing world is rapidly expanding and becoming widely available This eruption of data has made handling it a daunting and time consuming

task Natural language processing NLP is a method that applies linguistics and algorithms to large amounts of this data to make it more valuable NLP improves the interaction between humans and computers yet there remains a lack of research that focuses on the practical implementations of this trending approach Neural Networks for Natural Language Processing is a collection of innovative research on the methods and applications of linguistic information processing and its computational properties This publication will support readers with performing sentence classification and language generation using neural networks apply deep learning models to solve machine translation and conversation problems and apply deep structured semantic models on information retrieval and natural language applications While highlighting topics including deep learning query entity recognition and information retrieval this book is ideally designed for research and development professionals IT specialists industrialists technology developers data analysts data scientists academics researchers and students seeking current research on the fundamental concepts and techniques of natural language processing

Shop Window, Flagship, Common Ground Judith A. Muskett, 2019-11-30 How are cathedrals and churches understood Are they shop windows through which to gaze at the riches on offer within the Christian life Are they flagships of the Spirit Are they both sacred spaces and community utilities Shop window flagship common ground views the rich ministry and innovative mission of cathedrals through the novel lens of metaphor and it offers comparative insights on cathedrals and cathedral like churches Located in the emerging international field of cathedral studies the book explores the usage and inferences of a range of metaphors including shop windows of the Church of England flagships of the Spirit beacons of the Christian faith magnets and sacred space common ground This volume also shows how such metaphors can stimulate different types of research about the function of cathedral and church buildings With a Foreword by Professor Grace Davie the book suggests that cathedrals and cathedral like churches may play a role within vicarious religion theory It will provide a thought provoking critique for practitioners and a valuable contribution for scholars of cathedral studies congregational studies and ecclesiology
