Henry Miller and Narrative Form James Decker, 2006-06-01 In this bold study James M Decker argues against the commonly held opinion that Henry Miller's narratives suffer from formlessness He instead positions Miller as a stylistic pioneer whose place must be assured in the American literary canon From *Moloch* to *Nexus* through such widely read texts as *Tropic of Cancer* and *Tropic of Capricorn* Decker examines what Miller calls his spiral form a radically digressive style that shifts wildly between realism and the fantastic Drawing on a variety of narratological and critical sources as well as Miller's own aesthetic theories he highlights that this fragmented narrative style formed part of a sustained critique of modern spiritual decay A deliberate move rather than a compositional weakness then Miller's style finds a wide variety of antecedents in the work of such figures as Nietzsche Rabelais Joyce Bergson and Whitman and is viewed by Decker as an attempt to chart the journey of the self through the
