The Cree:

Night Spirits Ila Bussidor, Ustun Bilgen-Reinart, 2000-03-16 For over 1500 years the Sayisi Dene The Dene from the East led an independent life following the caribou herds and having little contact with white society In 1956 an arbitrary government decision to relocate them catapulted the Sayisi Dene into the 20th century It replaced their traditional nomadic life of hunting and fishing with a slum settlement on the outskirts of Churchill Manitoba Inadequately housed without jobs unfamiliar with the language or the culture their independence and self determination deteriorated into a tragic cycle of discrimination poverty alcoholism and violent death By the early 1970s the band realized they had to take their future into their own hands again After searching for a suitable location they set up a new community at Tadoule Lake 250 miles north of Churchill Today they run their own health education and community programs But the scars of the relocation will take years to heal and Tadoule Lake is grappling with the problems of a people whose ties to the land and to one another have been tragically severed In *Night Spirits* the survivors including those who were children at the time of the move as well as the few remaining elders recount their stories They offer a stark and brutally honest account of the near destruction of the Sayisi Dene and their struggle to reclaim their lives It is a dark story told in hope **The American Indian** Roger L.

Nichols, 1992 Important Events in Native American History **Developing a Model for Culturally Responsive Experiential Education** Elizabeth Laura Yomantas, 2023-12-01 This book provides a new empirically informed framework designed to equip higher education faculty with the tools to help students engage in humanizing mutually beneficial and anti colonial experiential education alongside other students and communities around the world The author maps the conceptual development of culturally responsive experiential education CREE as a novel framework situated at the nexus of culturally responsive research methodologies the Indigenous research paradigm critical service learning and critical pedagogy in experiential education The chapters detail qualitative research findings from an undergraduate CREE program in rural Fiji to illustrate the implementation of the novel CREE framework and discuss post program possibilities based on the research study findings Situated in narrative inquiry the book also includes interspersed participant vignettes in order to center student voices and illuminate the research study findings With attention to themes including emergent critical consciousness critical allyship and personal journeys of decolonization as experienced through the CREE framework it will be of benefit to both education scholars and higher education faculty interested in experiential education and culturally responsive pedagogies *Views from Fort Battleford* Walter Hildebrandt, 2008 The myth of the Mounties as neutral arbiters between Aboriginal peoples and incoming settlers remains a cornerstone of the western Canadian narrative of a peaceful frontier experience that differs dramatically from its American equivalent Walter Hildebrandt eviscerates this myth placing the NWMP and early settlement in an international framework of imperialist plunder and the imposition of colonialist ideology Fort Battleford as an architectural endeavour and as a Euro Canadian settlement oozed British and central Canadian values

The Mounties like the Ottawa government that paid their salaries were in the West to assure that a new cultural template of social behaviour would replace the one they found. The newcomers were blind to the cultural values and material achievements of the millennia long residents of the North West. Unlike their fur trade predecessors the settler state had little need to respect or accommodate Aboriginal people. Following policies that resulted in starvation for Natives the colonizers then responded brutally to the uprising of some of the oppressed in 1885. Hildebrandt's ability to view these events from the indigenous viewpoint places the Mounties, the Canadian state and the regional settlement experience in an entirely different spotlight.
