Hartwell,2022-07-19 Structure underlies every story but without a strong foundation even well written sentences can fail to result in a marketable manuscript The Foundation of Plot defines the components of a story arc details the differences between plot and story and covers common errors writers make It also includes exercises which apply concepts to works in progress or new projects Drawing on the author s decades of storytelling and teaching experience this short guide provides the framework for fiction narrative nonfiction and memoir walking writers through a first draft the repair of a failed manuscript or any draft in between For experienced authors and first time writers alike applying the concepts outlined in this manual can help launch a submission from the slush pile to the bookstore shelf **The Critical Eye** Guido Ballo,1969

Critical Eye Taylor, **Literary Education** James Gribble,1983 This book is an attempt to offer a justification for the teaching of literature in schools and universities and is intended as a contribution to the philosophy of literary education The issues which Dr Gribble discusses could all be bracketed under the general heading of the relationship between literature and life The book is written for those readers and teachers of literature who step back from their immediate engagement with a novel play or poem and ask such questions as What knowledge or understanding if any have I gained from the work Of what significance is the author s intention to my view of the work What moral value does the work possess What kinds of feelings or emotions did I experience How did my identification with certain characters influence my response In what way did the moral significance or emotional impact depend upon the quality of the writing What part does critical analysis play in determining the answers to any of these questions Dr Gribble s treatment of these issues is neither technical nor abstract but advanced on the basis of particular examples drawn from a wide range of literature Written in a lively and lucid style the book will interest all serious readers of literature although it is primarily directed at those who teach literature in schools colleges and universities and who are necessarily concerned with the educative value of reading and discussing literature
