The Copenhagen Connection Audiobook:

Digital Audiobooks Iben Have, Birgitte Stougaard Pedersen, 2015-08-11 Audiobooks are rapidly gaining popularity with widely accessible digital downloading and streaming services This book engages with the digital form of audiobooks framing audiobook listening as both a remediation of literature and an everyday activity that creates new reading experiences that can be compared to listening to music or the radio Have and Stougaard Pedersen challenge the historical notion that audiobook listening is a compensatory activity or a second rate reading experience while seeking to establish a dialogue between sound studies and media studies comparative literature aesthetics and sociology **Media and Communication**

in Nigeria Bruce Mutsvairo, Nnamdi T Ekeanyanwu, 2021-12-30 Communication is changing rapidly around the world particularly in Africa where citizens are embracing digital technologies not only to improve not only interpersonal communication but also the state of their financial well being This book investigates these transformations in Nigeria s booming communication industry The book traces communications in Nigeria back to pre colonial indigenous communications through the development of telecommunication broadcasting networks the press the Nigerian film industry Nollywood and on to the digital era At a time when Western voices still dominate the academic literature on communication in Africa this book is noteworthy in drawing almost exclusively on the expertise of Nigerian based authors critiquing the discipline from their own lens and providing an important contribution to the decolonisation of communication studies The authors provide a holistic analysis of the sector encompassing print journalism broadcast journalism public relations advertising film development communication organisational communication and strategic communication Analysis of the role of digital technologies is woven throughout the book concluding with a final section theorising the future of communication studies in Nigeria in the light of the digital media revolution Robust in its theoretical and methodological underpinnings this book will be an important reference for researchers of media and communication studies and those working on Africa specifically **Modern Trends Surrounding Information Technology Standards and Standardization within**

Organizations Jakobs, Kai, 2014-07-31 In fields as diverse as research and development governance and international trade success depends on effective communication However limited research exists on how professionals can express themselves consistently across disciplines Modern Trends Surrounding Information Technology Standards and Standardization within Organizations showcases the far ranging economic and societal ramifications incited by technical standardization between individuals organizations disciplines and nations This publication serves as a valuable model for inter disciplinary scholars IT researchers and professionals interested in the link between technology and social change in an increasingly networked and interconnected global society **Electrical World** ,1886 Books Out Loud ,2004 **The Electrical Review** ,1879

The Digital Reading Condition Maria Engberg, Iben Have, Birgitte Stougaard Pedersen, 2022-12-30 This volume offers a critical overview of digital reading practices and scholarly efforts to analyze and understand reading in the mediatized

landscape Building on research about digital reading born digital literature and digital audiobooks The Digital Reading Condition explores reading as part of a broader cultural shift encompassing many forms of media and genres Bringing together research from media and literary studies digital humanities scholarship on reading and learning as well as sensory studies and research on multimodal and multisensory media reception the authors address and challenge print biased conceptions of reading that are still prevalent in research whether the reading medium is print or digital They argue that the act of reading itself is changing and rather than rejecting digital media as unsuitable for sustained or focused reading practices they argue that the complex media landscape challenges us to rethink how to define reading as a mediated practice Presenting a truly interdisciplinary perspective on digital reading practices this volume will appeal to scholars and graduate students in communication media studies new media and technology literature digital humanities literacy studies composition and rhetoric *Kliatt Young Adult Paperback Book Guide* ,1996 Principles of Digital Audio, Sixth Edition Ken C. the discipline although one which may be explained by IR's traditional state centrism the subjugation of the city to the demands of the territorial state in the modern period and a lack of conceptual and analytical frameworks that can allow scholars to include the impact of cities within their work Presenting case specific scholarship from leading experts in the field each contribution guides the reader through the changing nature of cities in the international system and their increasing prominence in global governance outcomes The book features case studies on the financial power of cities city action in the security domain collaboration of cities in coping with environmental problems transnational urban regions and mayors as international actors to illustrate if the relationship between the city and the state has changed in profound ways and how cities are empowered by structural changes in world politics The multidisciplinary and global focus in *The Power of Cities in International Relations* sheds much needed light on the significance of the reemergence of cities from the long shadow of the nation state Only by examining the mechanisms that have empowered cities in the last few decades can we understand their new functions and capabilities in global politics
