Natural Selection Gary

Giddins,2006 Long recognized as America s most brilliant jazz writer the winner of many major awards including the prestigious National Book Critics Circle Award and author of a highly popular biography of Bing Crosby Gary Giddins has also produced a wide range of stimulating and original cultural criticism in other fields With Natural Selection he brings together the best of these previously uncollected essays including a few written expressly for this volume The range of topics is spellbinding Writing with insight humor and a famously deft touch he offers sharp edged perspectives on such diverse subjects as Federico Fellini and Jean Renoir Norman Mailer and Ralph Ellison Marlon Brando and Groucho Marx Duke Ellington and Bob Dylan horror and noir the cartoon version of Animal Farm and the comic book series Classics Illustrated Giddins brings to criticism an uncommon ability long demonstrated in his music writing to address in very few words an entire career so that we get an in depth portrait of the artist beyond the film book or recording under review For instance Giddins offers a stunning reappraisal of Doris Day who he terms the coolest and sexiest female singer of slow ballads in film history He argues eloquently for a reconsideration of the forgotten German language novelist Soma Morgenstern In a section on comedy he offers fresh perspectives on the three great silent film stars Chaplin Keaton and Lloyd while resurrecting the legendary Jack Benny and reevaluating the controversial Jerry Lewis There s also a memorable look at Bing Crosby s film career he calls Crosby s blockbuster Going My Way a neglected masterpiece and a close examination of Marcel Carne s beloved Children of Paradise Of course Giddins also supplies excellent commentary on jazz major and underrated figures and especially the uses of jazz in film A wonderful gathering of little known treasures Natural Selection will broaden the perception of Gary Giddins as one of our most important cultural critics

The Army That Never Was Taylor Downing,2024-05-23 On 29 May 1944 General George S Patton gave a speech in the south east of England to the men of his Army in which he spoke of the American desire to win and of how losing was hateful to Americans As he rose to his crescendo he said how much he pitied those sons of bitches we are going up against by God I do On that same day General Omar Bradley gave a calmer speech in Somerset to the men of his Army about how much rested on the upcoming invasion of northern France and how vital their role was in achieving victory Apart from the very different

tones of the speeches reflecting the opposite character of the two Army commanders there was another big difference Bradley was speaking to men who in a little over a week would be splashing ashore on the beaches of Normandy Patton was addressing an Army that didn't exist The Army That Never Was tells the story of the biggest deception operation of the Second World War the plan to mislead the Germans into thinking that the invasion of Europe would come at the Pas de Calais by inventing an entirely fake Army group in the south east of England Full of fascinating characters from the US Britain and Germany this compelling and propulsive narrative explores one of the most remarkable stories of the Second World War

Fortitude Roger Hesketh, 2002-05-30 This declassified WWII report offers a detailed look at the Allied campaign to deceive the Nazis about the imminent attack on Normandy As the conflict in Europe wore on the Germans braced for an amphibious assault on France The only question was where and when the Allies would strike This required an intricate misinformation campaign to throw the Nazis off the scent The objective of Operation Fortitude was to persuade the enemy that the long awaited landings would take place in the Pas de Calais and that any attack in Normandy would be nothing more than a diversionary feint that could be safely ignored Hundreds of bogus agent reports were manufactured an entire US Army Group was invented false radio signals transmitted and inflatable tanks dummy bombers built of balsa wood and canvas landing craft were positioned where they could be photographed by the Luftwaffe The elaborate ruse suggested an imminent amphibious assault from Dover across the shortest stretch of the English Channel Operation Fortitude was an extraordinary success In this volume the classified official history of the entire operation written by Roger Hesketh as head of the team of D Day deception specialists has been declassified and released
