

The Crime *of* Galileo

By GIORGIO DE SANTILLANA

"THE CRIME OF GALILEO is the best account I have read of that famous
'cause célèbre.' . . . Instructive reading at a time when
similar trials are being conducted in many
countries including our own."—GEORGE SARTON,
Professor of the History of Science, Emeritus, Harvard University

The Crime Of Galileo

Galileo Galilei

The Crime Of Galileo:

The Crime of Galileo, 1958 **The Crime of Galileo, by Giorgio de Santillana** Gerd Buchdahl, 1958 **The Crime of Galileo, By Giorgio De Santillana** Giorgio De Santillana, 1955 **The Crime of Galileo** Giorgio De Santillana, 1976

The Crime of Galileo, 1958 **The crime of Galileo** Kurt Johann Heinrich Ellenberger, 1996 What was the crime of Galileo? John L. Russell, 1995 *Modern History Sourcebook: The Crime of Galileo: Indictment and Adjuration of 1633*, Features excerpts of the indictment abjuration and sentence of the Tribunal of the Supreme Inquisition against Italian mathematician astronomer and physicist Galileo Galilei 1564 1642 provided online as part of the Internet Modern History Sourcebook of Paul Halsall Galileo was tried by the Inquisition for his belief in the Copernican system Galileo's Inquisition Trial Revisited Jules Speller, 2008 This book shows that the known accounts of Galileo's trial leave many important facts unexplained or even clash with them A most careful reading of the relevant documents and treatises backs an interpretation which has Pope Urban VIII sue Galileo for denying God's omnipotence or His omniscience by admitting the absolute truth of Copernicanism The Pope's opinion results from an argument he fully trusts together with his belief that Galileo failed to fulfill a condition to which the publication of the Dialogue was subjected That the trial does not end with a conviction for Urban's awful formal heresy but merely for vehement suspicion of heresy with the heresy consisting in the pseudo heretical belief in a doctrine contrary to the Bible all this is due to the existence of a Galileo friendly party inside the Holy Office led by Cardinal Francesco Barberini and powerful enough to wring a compromise from the Pope

The Achievement of Galileo Galileo Galilei, 2001 Paolucci's idiosyncratic selection of readings on the Galileo Copernicus controversy published originally in 1962 is presented in a new edition with additional material translated and edited by Brophy emeritus English Iona College Translated excerpts are from the writing of Galileo and a diverse selection of other writers on the topic of Galileo's attachment to Copernican astronomy Some of the selections include prefatory material there is no index Paolucci taught political science government ancient and modern philosophy at St John's U Distributed by Griffon House Publications c Book News Inc A History of the Warfare of Science with Theology in Christendom Andrew Dickson White, 1896 Galileo Colin A. Ronan, 1974 Galileo may have had a predilection for the life of an artist yet he was essentially a man of science He lived and breathed a new and revolutionary scientific air and it is not possible to separate the man from his science to ignore his work and expect to see his character in the round Nevertheless I have tried in this book to keep his science in perspective and yet set him against the backcloth of his age and above all to trace the inexorable sequence of events that forced Galileo into his inevitable clash with the Inquisition To do this I have made use of recent historical research that has shown not only the full extent of his scientific brilliance but equally significant has taken a more penetrating look at the background to the trial the sentence and Galileo's recantation Introduction **A History of the warfare of science with theology in Christendom v. 1** Andrew Dickson White, 1897 *The Warfare of Science* Andrew

Dickson White,1876 **Galileo's Mistake** Wade Rowland,2001-08-04 Veteran literary journalist Wade Rowland takes one of the modern world s most influential myths the epic confrontation of physicist and astronomer Galileo Galilei 1564 1642 with the Church of Rome and turns it on its head Rowland argues that at the dawning of the Scientific Revolution in the early 1600s Galileo s mistake was to insist that science provides truth about nature The Church fought back against this challenge to its authority by declaring that science provides only models for reality and that the ultimate truth is accessible only through metaphysical or spiritual insight Although the 1633 trial centred on Galileo s telescopic observations of the night sky Rowland argues persuasively that this was merely the public face put on a much more profound issue what is truth and how can we know it Galileo s ultimate recantation Rowland argues must be understood in this light Couched in the engaging style of travel narrative this provocative reexamination deconstructs the myth that Galileo was a freethinker waging war against reactionary and anti intellectual Church Using the Socratic method of examining arguments Galileo s Mistake moves seamlessly through Galileo s life and his ideas about the nature of reality By no means an apologist for the Church Rowland skillfully and persuasively identifies the source of the ontological crisis that plagues us today the unquestioned authority of science in determining the nature of reality The Warfare of Science. ... With Prefatory Note by Professor Tyndall Andrew Dickson White,1876 *The Warfare of Science, Etc* Andrew Dickson White,1876 The Popular Science Monthly ,1892

Galileo's Astrology Nicholas Campion,2003 *Wereldbeeld en teologie* Max Wildiers,1973
