The Critics Alchemy:

The Critic's Alchemy Ruth Zabriskie Temple, 1962 *Confessions of the Critics* H. Aram Veesser, 2014-05-01

The *Confessions of the Critics* shatters a certain silence. Autobiographical criticism has until now skated relatively free from the challenges that usually assail a new literary critical method. It has had this immunity from critique largely because feminists and third world liberation fighters such as Alice Walker, Adrienne Rich, and Jane Gallop ushered it to the North American academic stage. Other women and men including Rigoberta Menchu, Nawal al Sadawi, Mahasweta Devi, and Malcolm X wrote in the tradition and genre of testimonio. These and other unimpeachably militant backgrounds gave confessional criticism a certain cache among the largely liberal community of literary scholars. We have hesitated to express misgivings about a form that seemed intrinsically tied to the most vital, powerful strivings. Telling stories about one's own past is probably our culture's richest way of characterizing the effects of social injustice and developing what it takes to resist various kinds of victimage, writes contributor Charles Altieri. *Confessions of the Critics* provides a revealing look into the thoughts and experiences of some of the most influential and important critics of the 20th century. The writers included avoid pretention and gross self-misrepresentation, giving way to raw, sometimes embarrassing, always wholly believable emotion. Describing cumulative literary shocks and episodes of self-recognition, contributors offer insights to their ruling passions and works. Powerful sensations, emotions, recognitions, and revelations make up the heart of *Confessions of the Critics*. It is a book that none will put aside or easily forget.

Contributors: Charles Altieri, William Andrews, Michael F. Berube, Timothy Brennan, Gillian Brown, Cathy Davidson, Elizabeth Fox-Genovese, Diane Freedman, Marjorie Garber, Gerald Graff, Stephen J. Greenblatt, Michael Hill, Marianne Hirsch, Alice Yeager, Kaplan, Amitava Kumar, Candace Lang, Louis Menand, Judith Lowder Newton, Linda Orr, Vincent Pecora, David Simpson, Gayatri Chakravorty Spivak, Madelon Sprengnether, Jane Tompkins, Marianna Torgovnick, H. "King of Critics" Dorothy Richardson Jones, 1992. An early advocate of art for art's sake, George Saintsbury became for the English reader of the 1880s the interpreter of all French literature and later a pioneer in comparative literature and historian of English prosody and prose rhythm. His early years at Oxford shaped his literary attitudes for life. After a decade as a schoolmaster, he was for many years a leading London journalist, then professor of English at the University of Edinburgh. Eighteen more years saw a steady flow of prefaces and essays and a history of the French novel. In *King of Critics*, one meets a man of myriad literary tastes who wished to know the whole history of European literature and share it all with readers. He loved equally the purest lyrics of Shelley and the complexity of Donne, the richness of Rabelais, the panorama of Scott and medieval romance, and the profound depths of irony in Swift and Ecclesiastes, and always urged upon the reader the joys of minor writers. *King of Critics* is a fascinating study, not only of Saintsbury but of the literary world of Victorian/Edwardian England. It will appeal to a wide variety of readers, particularly those interested in biography and literary history and criticism.

Criticism and Literary Theory 1890 to the Present Chris

Baldick,2014-06-11 Presents a coherent and accessible historical account of the major phases of British and American Twentieth century criticism from decadent aestheticism to feminist deconstructionist and post colonial theories Special attention is given to new perspectives on Shakespearean criticism theories of the novel and models of the literary canon The book will help to define and account for the major developments in literary criticism during this century exploring the full diversity of critical work from major critics such as T S Eliot and F R Leavis to minor but fascinating figures and critical schools Unlike most guides to modern literary theory its focus is firmly on developments within the English speaking world

Chaucer's Poetic Alchemy Sheila Fisher,2019-10-16 Originally published in 1988 The economic changes and the growth of commerce in fourteenth century England precipitated both social changes and a preoccupation with material wealth This book examines Chaucer's treatment of economic and ethical value in The Canterbury Tales within the context of contemporary economic and social change and in relation to the scholastic economic theory that attempted to formulate ethical standards for commercial conduct The importance of value and its determination and transformation is evident from the two enterprises that Chaucer defines as the motivating principles for his poem The pilgrimage to St Thomas's shrine should effect a transformation of their spiritual value The story telling competition that produces the tales themselves is established to judge the value of the pilgrims literary productions In the Middle Ages economic value and ethical value were not perceived as unrelated phenomena Chaucer's concern with the interrelationship of material and moral value is apparent in the number of pilgrims who are interested in material value at the obvious expense of moral value This book examines this along with a discussion of money's growing importance in the late Middle Ages and the determination of its value The

Languages Anna Balakian,Anna Elizabeth Balakian,1984 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages The scope of these analyses which

explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European

literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic

contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us

to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and

intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de siècle is still felt today
