Jacobsen, 2009-02-05 This book unpacks business leader Max De Pree s famous definition of leadership originally given for the business world and applies it to the church Eighteen theologians and pastors here offer essays echoing that definition The Three Tasks of Leadership is refreshingly free of jargon full of practical and inspirational advice and perfect for both pastors in the field and pastors in formation Contributors David Augsburger Robert Banks James E Bradley Mark Lau Branson Sherwood Lingenfelter Richard J Mouw Nancy Ortburg Richard Peace Charles J Scalise Wilbert R Shenk Marguerite Shuster Siang Yang Tan Dennis N Voskuil Linda Wagener Howard Wilson and Walt Wright **Breaking the Ceiling** Richard Gracious Gadama, 2025-01-22 This book explores the crucial and often

overlooked role of women in the rapidly growing Charismatic Movement within Malawi's Christian landscape Through extensive research and in depth analysis Gadama delves into the lived experiences of women in Charismatic churches examining their leadership roles and spiritual practices and the socio cultural challenges they face This work contributes significantly to the understanding of gender dynamics within Malawian Christianity offering both scholarly insight and platform for the voices of women in the church This book with its deep engagement with the religious life of Malawi is a valuable resource for anyone seeking to understand the evolving role of women in the church both in Malawi and in the broader African context

A Country of Shepherds Kathleen Ann Myers, 2024-03-05 This book draws on the life stories told by shepherds farmers and their families in the Andalusian region in Spain to sketch out the landscapes actions and challenges of people who work in pastoralism Their narratives highlight how local practices interact with regional and European communities and policies and they help us see a broader role for extensive grazing practices and sustainability *A Country of Shepherds* is timely reflecting the growing interest in ecological farming methods as well as the Spanish government's recent work with UNESCO to recognise the seasonal movement of herd animals in the Iberian Peninsula as an Intangible Cultural Heritage Demonstrating the critical role of tradition cultural geographies and sustainability in the Mediterranean this book will appeal to academicians but also to general readers who seek to understand in very human terms the impact of the world wide environmental crisis we are now experiencing

A Treatise on Christian Banking Morten Bosterud, 2022-08-01 From a moral perspective all banking practice and theory can be seen as value driven Therefore there will be no such thing as value neutral banking activities and the application of Christian ethical and pastoral principles adds insights to the field of banking for all its involved stakeholders This book contributes to the specific scientific discourse of practical theology as this typically appears within the subfields of ethics and pastoral studies Christian ethics and pastoral principles as applied in banking make up a largely neglected area in the wider academic discourse found within practical theology and the research presented in this book contributes new knowledge to the field with particular emphasis on banking practice It is expected that the theories presented herein will be of interest for other scholars not only within the realm of practical theology but also in a cross domain perspective where scholars in a broad field of disciplines may find the research and academic positions of interest Such academic fields would include economics finance business administration sociology history anthropology and perhaps more This expectation may not least be derived from the increasing focus on Corporate Social Responsibility CSR as this has emerged over the last decades within the wider business realm in general whence the world of banking has followed suit Alongside this development an emergence of Islamic banking has been seen which has showed substantial growth and success

SHEPHERDING GOD'S FLOCK David A Swincer,2017-08-01 The traditional pastoral role has changed over the last decades largely due to the growth of mega churches The senior pastor has tended to become more an executive leader with an emphasis on public preaching as the figurehead of a large organisation The traditional pastoral role has been superseded in large part in these situations with much of the regular pastoral role being performed by a range of associate pastors elders with a primary function as pastors with little if any preaching component In the past many churches did not have any pastoral assistance and often the pastor was assisted by deacons performing de facto pastoral roles whilst also performing the normal administrative functions usually ascribed to deacons This has meant that often the expectancy of performing this de facto pastoral role has led to a more selective process for choosing deacons often precluding some well equipped and gifted men from a serving ministry because they did not simultaneously qualify as elders We look at the pastoral role generally but with a view to multiplying this role in order to meet the needs of growing congregations through the introduction of elders Some practical considerations are given for the transition to introduce these changes Alongside this what is the function of women in leadership ministries of the church
