It demands the highest standards of scholarship from its contributors, all of whom are leading academics in their fields. It gives preference to studies pursuing interdisciplinary approaches and to those developing novel methodological ideas. The scope is exceptionally broad and includes manuscript studies, textual criticism, iconography, studies of the relationship between words and music, and the relationship between music and society. Articles in volume seven include: Music ritual and patronage at the Church of Our Lady Antwerp; Instrumental music in urban centres of Renaissance Germany; and the fourth century origin of the gradual.
