Adogame, Chad M. Bauman, Damaris Parsitau, Jeaney Yip, 2024-05-07 The Routledge Handbook of Megachurches provides a survey of global megachurch phenomena with an international slate of authors introducing existing and emerging research on a wide variety of relevant topics. Over the past decade the field of megachurch studies has matured and become global in its scope and orientation. The Handbook offers 33 chapters by top scholars in the field focusing in particular on The location, demographic nature and transnational connections of megachurches; Megachurch worship, hermeneutics and theology in theory and practice; Megachurch institutional dynamics; The various ways that megachurches have both influenced and been influenced by their social contexts in terms of class, age, gender, sexuality and pop culture. The Handbook's interdisciplinary orientation makes it essential reading for sociologists, political scientists, anthropologists, media specialists, pop culture observers, business strategists, leadership consultants, marketing analysts, scholars of religion and Christian historians, theologians and missiologists. Experienced scholars of megachurches will gain valuable insight into aspects of megachurch research beyond their own specializations. Scholars new to the field will find the chapters useful as signposts for where to begin their own academic exploration. Christian pastors and laypeople will learn more about this increasingly prominent and influential form of their faith.

Self-Help in the Digital Age Loredana Filip, 2024-09-23

In an age where science and technology hold sway and the humanities face a crisis this book explores the evolving role of literature. It delves into how American self-help culture shapes contemporary ideals of success, mindfulness and happiness with a particular focus on its influence in science communication, notably in TED talks. Moreover, it underscores the enduring relevance of literature in the digital era by analyzing speculative novels that challenge established norms including those propagated by TED. These novels include Richard Powers' *Generosity: An Enhancement*, Margaret Atwood's *MaddAddam* trilogy and Gary Shteyngart's *Super Sad True Love Story*. They question the Western preference for visual perception which perpetuates a human-centric worldview. By focusing on literary synesthesia in the readings, this book emphasizes sensory experiences and human/non-human interactions. It adopts the concept of research as assemblage and uses a diverse range of theories and approaches while it foregrounds critical posthumanism and new materialism. Ultimately, it advocates for a less anthropocentric approach to reading and presents literature as a transdisciplinary life science capable of fostering a kinship of posthumanity.
