a specific treatment of the funerary sculpture The first essay is an overview of the study of Attic types of sculpture the second discusses the specific features of funerary sculpture from Athens and Attica and the third examines the characteristics of the funerary sculptures found in the Agora thereby forming an introduction to the catalogue that follows The catalogue includes stelai and naiskoi with female and or male figures sirens decorative anthemia funerary vessels lekythoi loutrophoroi animals mensa columnar monuments and more There are separate indexes of museums names demes places and findspots as well as a general index Library of Congress Catalog United States,1977 *The Invention of Art History in Ancient Greece*

Jeremy Tanner,2006-03-23 The ancient Greeks developed their own very specific ethos of art appreciation advocating a rational involvement with art This book explores why the ancient Greeks started to write art history and how the writing of art history transformed the social functions of art in the Greek world It looks at the invention of the genre of portraiture and the social uses to which portraits were put in the city state Later chapters explore how artists sought to enhance their status by writing theoretical treatises and producing works of art intended for purely aesthetic contemplation which ultimately gave rise to the writing of art history and to the development of art collecting The study which is illustrated throughout and draws on contemporary perspectives in the sociology of art will prompt the student of classical art to rethink fundamental assumptions about Greek art and its cultural and social implications The Art of Narrative Analogy Seth D.

Postell,2025-11-04 In *The Art of Narrative Analogy* Seth Postell offers a literary approach for understanding the relationship between the two Testaments and between various biblical narratives that is more sensitive to the verbal meaning of the Old Testament than popular typological approaches He argues that narrative analogy the deliberate paralleling of characters events and themes across biblical texts provides a more exegetically responsible and theologically fruitful method for understanding the Bible s unity and depth Drawing on extensive examples from the Hebrew Bible and the New Testament Postell reveals how scriptural authors employ parallels to illuminate theological truths and deepen narrative coherence From the connections between Rahab and Lot to the analogies between Jonah and the calming of the storm in Mark s Gospel he shows how these parallels invite readers into the Bible s grand theological narrative Postell also integrates illustrations from modern storytelling such as Star Wars to demonstrate how analogy shapes meaning in both ancient and contemporary contexts Postell offers clear criteria for identifying narrative analogies and practical guidance for interpreting them making this volume an indispensable resource for students pastors and church leaders *The National Union Catalogs, 1963- ,1964*
