The Mode Of Information Poststructuralism And Context:

The Mode of Information Mark Poster,1990 Poster has begun to theorize a very significant topic [Legal Medicine Open File](#) ,1995 **The Mode of Information** Mark Poster,2013-04-23 In this path breaking work Mark Poster highlights the

nature of the newly emerging forms of social life in the current era The flexibility of language which the computer allows makes the written word less certain and less concrete The result of these changes Poster argues is a new communication experience an interaction between humankind and a new kind of reality Poster discusses the addictive properties of television and arcade video games as well as the surveillance possibilities which the new communication technologies offer the state His wide ranging analysis incorporates the new language based theories of mathematics philosophy and literature in Wiener Derrida and Barthes among others This work is a major new contribution to the debate surrounding the future of electronically mediated experiences [Poststructuralism, Marxism, and Neoliberalism](#) Michael A. Peters,2001-10-23 This

introduction to the politics of poststructuralism focuses on two interrelated themes the culture of Western Marxism and contemporary neoliberal capitalism Poststructuralism is not a form of anti Marxism Peters argues indeed poststructural philosophers view themselves in some kind of relationship to the legacy of Marx Either they have been Marxist or still view themselves as Marxist In a post Marxist era they have invented new ways of reading and writing Marx Peters critically engages neoliberalism an ideology that is committed to the revitalization of homo economicus and neoclassical economics This book is a deconstruction of neoliberalism considered as a world historical political project aimed at a form of

globalisation **Cultural Studies and Political Economy** Robert E. Babe,2010-05-10 This book addresses the notorious split between the two fields of cultural studies and political economy Drawing on the works of Harold Innis Theodor Adorno Raymond Williams Richard Hoggart E P Thompson and other major theorists in the two fields Robert E Babe shows that political economy can be reconciled to certain aspects of cultural studies particularly with regards to cultural materialism Uniting the two fields has proven to be a complex undertaking though it makes practical sense given the close interaction between political economy and cultural studies Babe examines the evolution of cultural studies over time and its changing relationship with political economy The intersections between the two fields center around three subjects the cultural biases of money the time space dialectic and the dialectic of information *Media Studies: Content, audiences, and production*

Pieter Jacobus Fourie,2001 This book includes theoretical approaches as well as a production section that focuses on basic techniques and introductory applications of media studies **Immersive Communication** Qin Li,2019-12-06

Communication like the atmosphere itself is ubiquitous and essential for humans and with the development of new technologies such as wireless internet 3D printing and virtual reality it has become almost impossible to live without it In addition means of communication have changed immeasurably This book proposes a new research paradigm that incorporates new features and factors of communication and a new theoretical framework named immersive communication

Pointing out that communication today has moved beyond the bi directional mass communication of the second media age to ubiquitous immersive communication in the third media age the author discusses the definition characteristics information structure and models of immersive communication using various examples including Fitbit Apple 4G and other technologies while envisioning future applications of the immersive communication model Scholars and students of communication studies especially those interested in the manifestations of the new media age will all benefit from this book It will also appeal to readers interested in new media and communication theories
