Jamal, 2018-03-14 Within the global phenomenon of the re emergence of religion into issues of public debate one of the most salient issues confronting contemporary Muslim societies is how to relate the legal and political heritage that developed in pre modern Islamic polities to the political order of the modern states in which Muslims now live This work seeks to develop a framework for addressing this issue The central argument is that liberal theory and in particular justice as discourse can be normatively useful in Muslim contexts for relating religion law and state Just as Muslim contexts have developed historically and continue to develop today the same is the case with the requisites of liberal theory and this may allow for liberal choices to be made in a manner that is not a renunciation of Muslim heritage The Making of the Modern State B.

Nelson, 2006-03-15 Nelson provides a historical overview of the theoretical and ideological evolution of the modern state from pre state and pre modern state formations to the present A major theme of the book is the need to understand the modern state holistically as a totality of social political and ideological factors **Political Theory and the Modern State** David

*The Modern Idea of the State* H. Krabbe, 2012-12-06 The value of the more general and abstract efforts of political theory of what may perhaps be called the philosophy of the state is often questioned It is urged on the one hand that the true science of politics cannot go beyond the study of the actual organization of government and of its relations to other social and economic institutions On the other hand it is asserted that political philosophy because it is necessarily a priori in method cannot do more than ring the changes on certain fundamental types of theory which were stated once for all in the far distant past Thus for example Professor Dunning in his recent book on Political Theories from Rousseau to Spencer says Greek Thought on this problem the justification of authority and submission in the fourth and third centuries before Christ included substantially all the solutions ever suggested 1 Nevertheless with some ups and downs political philosophy goes on it is one of those subjects of permanent human interest which whether scientific or not men are not likely to abandon To be sure it does at times degenerate into an apology for special interests in their endless struggle for power This danger can scarcely be avoided when men undertake to weigh values and to estimate the importance of tendencies that have not yet eventuated in political fact But notwithstanding this danger the criticism of principles is indispensable
