**The Murdoch Legacy** Irma Walker,1975      **Bonfire of the Murdochs** Gabriel Sherman,2026-02-03 The real succession story of the Murdoch empire is more shocking than the fictional TV series When Rupert Murdoch made a fateful decision about who should inherit his media colossus he believed that pitting his children against each other would produce the most capable heir Twenty five years later that gamble would tear apart one of the world's most powerful families and trigger a multi billion dollar reckoning in a succession battle featuring betrayals lawsuits and revenge plots In Bonfire of the Murdochs bestselling author Gabriel Sherman tells the inside story of this epic family war one whose seeds were planted a half century ago in Australia when the complicated patriarch left his homeland to conquer the world and please the ghost of his judgmental father That quest culminated in a media empire that controlled Fox News The Wall Street Journal and tabloids on three continents which wielded more political and cultural power than any single company in modern times But Rupert's plan to rip up the secret trust controlling his empire and anoint his conservative firstborn son Lachlan as successor set him on a collision course with his three more liberal children What price would Rupert pay to secure his legacy For the aging patriarch this would be his final and most personal deal Based on interviews with more than 150 sources Bonfire of the Murdochs is a richly textured narrative where each child plays their predestined role in a blood feud that explodes in a courtroom showdown There Murdoch's children weaponize his own secrets against him It is a tragedy Shakespeare would have appreciated where getting everything you want costs everything you love      [Famous Philosophers and Their Teachings Part-2](#) Hseham Amrahs,2024-01-05 Philosophy as a discipline spans centuries and continents revealing the intricate tapestry of human contemplation Each philosopher a distinct thread in this tapestry contributes a unique hue to the rich narrative of our intellectual history The lives they led the ideas they forged and the impact they left on societies illuminate the evolution of philosophical thought across epochs As we delve into the lives of these luminaries we encounter diverse cultural landscapes historical contexts and intellectual climates that have shaped their worldviews From the ancient thinkers of Greece and Persia to the Enlightenment philosophers of Europe and from the profound insights of Eastern philosophers to the groundbreaking theories of modern thinkers this book traverses the global spectrum of philosophical wisdom      [Lives and Teachings of Famous Philosophers Part-2](#) Hseham Amrahs,2025-01-18 Philosophy as a discipline spans centuries and continents revealing the intricate tapestry of human contemplation Each philosopher a distinct thread in this tapestry contributes a unique hue to the rich narrative of our intellectual history The lives they led the ideas they forged and the impact they left on societies illuminate the evolution of philosophical thought across epochs As we delve into the lives of these luminaries we encounter diverse cultural landscapes historical contexts and intellectual climates that have shaped their worldviews From the ancient thinkers of Greece and Persia to the Enlightenment philosophers of Europe and from the profound insights of Eastern philosophers to the groundbreaking theories of modern thinkers this book traverses the global

**SUMMING UP** JOHN MENADUE,2024-07-03 The world and its people are facing serious local and global challenges Climate change economic instability limits to free speech threats to independent media reporting and increasing social inequality all signal the breakdown of democratic systems across the world Our political institutions and leaders are failing us with increasingly conservative policies that favour big business Far right political movements gain ascendency and move whole nations towards fascism while American hostility to China threatens global security and economic prosperity Yet we learn and grow most when we are challenged by difference and adversity when we are out of our comfort zones Such experiences offer turning points for change I ve had many such turning points throughout my career and have become more radical as I ve grown older In 1999 I published my autobiography *Things You Learn Along the Way* This new collection continues with personal accounts and my views on issues that remain of concern to me It comprises posts I wrote for *Pearls and Irritations* along with several speeches interviews and articles I ve written over the past 14 years I hope these accounts continue to prompt readers to think question and act for a more just Australia and world
