The Museum World Of Henry James:

The Museum World of Henry James Adeline R. Tintner, 1986 **To the Collector Belong the Spoils** Annie Pfeifer, 2023-02-15

To the Collector Belong the Spoils rethinks collecting as an artistic revolutionary and appropriative modernist practice which flourishes beyond institutions like museums or archives Through a constellation of three author collectors Henry James Walter Benjamin and Carl Einstein Annie Pfeifer examines the relationship between literary modernism and twentieth century practices of collecting objects From James s paper hoarding to Einstein s mania for African art and Benjamin s obsession with old Russian toys she shows how these authors literary techniques of compiling gleaning and reassembling constitute a modernist style of collecting that reimagines the relationship between author and text source and medium Placing Benjamin and Einstein in surprising conversation with James sharpens the contours of collecting as aesthetic and political praxis underpinned by dangerous passions An apt figure for modernity the collector is caught between preservation and transformation order and chaos the past and the future Positing a shadow history of modernism rooted in collection citation and paraphrase To the Collector Belong the Spoils traces the movement s artistic innovation to its preoccupation with appropriating and rewriting the past By despoiling and decontextualizing the work of others these three authors engaged in a form of creative plunder that evokes collecting s long history in the spoils of war and conquest As Pfeifer demonstrates more than an archive or taxonomy modernist collecting practices became a radical creative endeavor the artist as collector the collector as artist

Prospects for the Study of American Literature Richard Kopley, 1997-08

What can there possibly be left to say about This common litany resonant both in and outside of academia reflects a growing sense that the number of subjects and authors appropriate for literary study is rapidly becoming exhausted Take heart admonishes Richard Kopley in this dynamic new anthology for this is decidedly not the case While generations of literary study have unquestionably covered much ground in analyzing canonical writers many aspects of even the most well known authors both their lives and their work remain underexamined Among the authors discussed are T S Eliot Ralph Waldo Emerson William Faulkner Harriet Beecher Stowe Walt Whitman Ernest Hemingway Richard Wright Edith Wharton Nathaniel Hawthorne Zora Neale Hurston Henry James Willa Cather Herman Melville Edgar Allan Poe Henry David Thoreau and Mark Twain

Victorian and Edwardian Responses to the Italian Renaissance John E. Law, Lene Østermark-Johansen, 2017-03-02

The historiography of the Italian Renaissance has been much studied but generally in the context of a few key figures Much less appreciated is the extent of the enthusiasm for the subject in the 19th and early 20th centuries when the subject was discovered by travellers and men and women of letters historians artists architects and photographers and by collectors on both sides of the Atlantic The essays in Victorian and Edwardian Responses to the Italian Renaissance explore the breadth of the responses stimulated by the encounter between the British the Americans and the Italians of the Renaissance The volume approaches the subject from an interdisciplinary perspective While recognising the

abiding importance of the familiar great names it seeks to draw attention to a wider cast of people many of whom led colourful energetic lives knew Italy well and wrote eloquently about the country and its Renaissance Several essays show that Renaissance studies became a field in which female historians could explore areas of relevance to the New Woman Other chapters examine the aims and politics of collecting and the place of the collector in literature and in the rediscovery of Renaissance artists The contribution of teachers and other less formal champions of the Italian Renaissance is explored as is the role of photographers who re framed and re viewed Florence the Renaissance city for Victorian and later eyes
