**Research Companion to the Periphery and Peripheral Regions** Jerzy Banski, 2025-11-04 This interdisciplinary Research Companion sheds light on territories located outside or far from urban centers. It discusses in detail the peripheralization occurring in these regions including low levels of social and economic progress, reduced infrastructure, migration outflow, and other challenges.

*Cinema at the Periphery* Dina Iordanova, David Martin-Jones, Belén Vidal, 2010 Highlights the industries, markets, identities, and histories that distinguish cinema beyond the traditional hubs of mainstream Western cinema. From Iceland to Iran, from Singapore to Scotland, a growing intellectual and cultural wave of production is taking cinema beyond the borders of its place of origin, exploring faraway places, interacting with barely known peoples, and making new localities imaginable. In these films, previously entrenched spatial divisions no longer function as firmly fixed grid coordinates; the hierarchical position of place as center is subverted, and new forms of representation become possible. In *Cinema at the Periphery*, editors Dina Iordanova, David Martin Jones, and Belén Vidal assemble criticism that explores issues of the periphery, including questions of transnationality, place, space, passage, and migration. *Cinema at the Periphery* examines the periphery in terms of locations, practices, methods, and themes. It includes geographic case studies of small national cinemas located at the global margins, like New Zealand and Scotland, but also of filmmaking that comes from peripheral cultures, like Palestinian stateless cinema, Australian Aboriginal films, and cinema from Quebec. Therefore, the volume is divided into two key areas: industries and markets on the one hand, and identities and histories on the other. Yet as a whole, the contributors illustrate that the concept of periphery is not fixed but is always changing according to patterns of industry, ideology, and taste. *Cinema at the Periphery* highlights the inextricable interrelationship that exists between production modes and circulation channels and the emerging narratives of histories and identities they enable. In the present era of globalization, this timely examination of the periphery will interest teachers and students of film and media studies.

*Centring the Periphery* Patrick L. Baker, 1994 Patrick Baker's post-modern approach uses ideas from chaos theory and world systems theory to interpret the prehistory and history of Dominica. During its prehistory, Dominica served as an occasional stepping stone for small-scale independent foraging and horticultural peoples migrating up the Antillean arc to the larger islands in the north. Its discovery by Europeans brought it into a social and economic constellation that was constructed and orchestrated largely from the metropolitan centre. *Centring the Periphery* is the unfolding story of the struggle of the Dominican people to create and order a world that is controlled from outside.

**Multinationals on the Periphery** G. Benito, R. Narula, 2007-10-26 Multinational enterprises do not regard all locations as being equivalent. Smaller economies and less developed countries are not as attractive because of a limited market size or lack of proximity to other locations. This book focuses on how multinational activity to and from peripheral economies differs from their activity in core economies.
