The Hidden Injuries Of Class:

The Hidden Injuries of Class Richard Sennett, Jonathan Cobb, 2023-02-14 In this reissue of the 1972 classic of social anatomy Richard Sennett adds a new introduction to show how the injuries of class persist into the 21st century In this intrepid groundbreaking book Richard Sennett and Jonathan Cobb uncover and define a new form of class conflict in America an internal conflict in the heart and mind of the blue collar worker who measures his own value against those lives and occupations to which our society gives a special premium The authors conclude that in the games of hierarchical respect no class can emerge the victor and that true egalitarianism can be achieved only by rediscovering diverse concepts of human dignity Examining personal feelings in terms of a totality of human relations and looking beyond the struggle for economic survival *The Hidden Injuries of Class* takes an important step forward in the sociological critique of everyday life

The Hidden Injuries of Class Richard Sennett, 1993 **The Hidden Injuries of Class** Richard Sennett, 1973 **Book Review : Hidden Injuries of Class by Richard Sennett and Jonathan Cobb** Geoffrey R. Weller, 1975 **The Wire in the College Classroom** Karen Dillon, Naomi Crummey, 2015-03-07 The Wire's provocative subject matter layered narrative and explicit critiques of American socio economic institutions make it one of the most teachable television series in recent years This collection of new essays offers practical examples for implementing *The Wire* in the college classroom as a cultural text to engage students in critical and creative inquiry The essays provide a disciplinary framework for using the series in media studies writing and narrative ethics and rhetoric and education and literacy Each essay details the pedagogical goals of teaching the series or specific episodes how it was employed in class and student responses to the material Instructors considering this book for use in a course may request an examination copy here *The hidden injuries of class, by R.Sennett and J.Cobb, N.Y., A.A, Knopf, 1973 bibl* Richard Sennett, **Politics and the Hidden Injuries of Gender** Thelma McCormack, 1991 **Challenging Dominant Views on Student Behaviour at School** Anna Sullivan, Bruce Johnson, Bill Lucas, 2016-05-20 This is a deliberately provocative book It critiques current student behaviour management practices seeks to explain the flawed assumptions that justify those practices and proposes how things could be better for children in our schools if different practices were adopted It is one of the few books to offer alternative ways of addressing the issues associated with student behaviour at school and exposes the field to serious and sustained critique from both a research perspective and a children's rights ideological stance The authors address the following questions What ideas dominate current thinking on student behaviour at school What are the policy drivers for current practices What is wrong with common behaviour approaches What key ideologies justify these approaches How can we present ethical alternatives to current approaches How can a human rights perspective contribute to the development of alternative approaches In exploring these questions and some ethical alternatives to the status quo the authors suggest practical ways to answer back to calls for more authoritarian responses to student behaviour within our schools In doing so the authors advocate for

reforms on behalf of children and in their interests **On Resentment** Dolores Martin Moruno, 2013-07-16 Resentment has a history Paintings such as Gericault's *Le Radeau de La Méduse* nineteenth century women's manifestos and WWI war photographs provide but a few examples to retrace the changing physiognomy of this emotion from the second half of the eighteenth century up to our contemporary society The essays in this collection attempt to shed light on the historical evolution of this affective experience adopting the French Revolution as a gravitational force namely as a moment in which the desire to be other was politically legitimised by means of the ideal of a meritocratic society From Adam Smith's definition as social passion linked with justice to Nietzsche's interpretation of resentment as a pathological symptom this emotion has also shaped a plethora of social movements forging their identity out of hatred mixed with fear and indignation This volume seeks to provide new insights into the history of emotions by showing how resentment is a cultural experience that contributes to a better understanding of the differences between the past and the present world **Growing up Working Class** Thomas J. Gorman, 2017-08-10 This enlightening auto ethnography examines how social class and other social institutions and structures affect how people grow up Primarily the book investigates how American children and young adults are impacted by the hidden injuries of class and offers a rich description of how these injuries manifest and curdle later in life Thomas J Gorman provides sociological explanations for the phenomenon of the so called angry white man and engages with this phenomenon as it relates to the rise of recent populist political figures such as Donald J Trump He also examines how and why white working class people tend to lash out at the wrong social forces and support political action that works against their own interests Finally the book demonstrates the connections between working class attitudes toward schooling sports politics and economics **The Power of Lies** John Kucich, 1994 Trollope and the antibourgeois elite Competitive elites in Wilkie Collins cultural intellectuals and their professional others Lying and impulsiveness in Elizabeth Gaskell The professional and the mother moral disempowerment in *East Lynne* Moral authority in Hardy's late novels the gendering of art Feminism's ethical contradictions Sarah Grand and *New Woman* writing **Social Casework**, 1981
Making Elite Lawyers Robert Granfield, 1992 Orientation and commencement *Making Elite Lawyers* is the first detailed study of legal education at America's premier law school Drawing on in depth interviews student questionnaires and his own classroom observations author Robert Granfield documents the conservatizing effects of the Harvard legal education on a broad cross section of the student population paying particular attention to the fate of women students of color and those from working class Journal of the Folklore Institute Indiana University. Folklore Institute, 1975 **Violence** James Gilligan, 1997-04-29 In this groundbreaking book James Gilligan examines the epidemic foremost in the minds of most Americans violence As he tells the stories of the men he treated at a hospital for the criminally insane Dr Gilligan traces the devastating links between violence and shame He shows how that deadly emotion drives people to destroy others and even themselves rather than suffer a loss of self respect When Markets Fail Emma Coleman Jordan, Angela P. Harris, 2006 This

book provides the foundation for thinking outside the box of conventional legal strategies and arguments to make visible new and more creative paths toward racial justice For example how are familiar legal debates like the one over affirmative action transformed when seen from a perspective incorporating a sophisticated understanding of the relationship between race and class and a vision enriched by both efficiency and justice concerns Will market competition do away with racial discrimination How does the empirical evidence of persistent discrimination fit with neoclassical economic claims that over time markets are race neutral This book provides the resources for developing a multifaceted approach to racial justice Race and class have long been inextricably intertwined in American society From this perspective neither political struggles nor economic strategies alone can dissolve the knot of racial inequality Belief systems everyday practices and social norms undergird the operation of all institutions public and private and in the United States race has historically played an important role in shaping these beliefs practices and norms Thus serious students of inequality should understand the strengths and weaknesses of both market and government regulation Moreover students should understand that both market and government institutions are rooted in culture This book is the answer for faculty teaching courses about discrimination and looking for materials that take seriously the problem of racial subordination and provide in depth rigorous analyses of economic frameworks contributing to inequality

Sport and Gender in Canada Kevin Young,Philip White,2007 This contributed volume includes articles on sport and gender written by leading scholars in their areas of expertise Part I demonstrates that 1 the relationship between sport and gender has not developed in a smooth uncontested or linear way that always privileges all males and always discriminates against all females and 2 that the relationship between sport and gender can best be understood sociologically by tracing the intersections between sport gender and other ways that Canadian life has been and remains stratified such as social class age race ethnicity and sexuality In Chapter 1 Melissa Parker and Philip White explore the chronological development of theoretical frameworks addressing both the gendering of sport and what it means to be gendered in sport Michael Atkinson argues in Chapter 2 that there is a strong link between types of research methods used and knowledge claims made by researchers In Cultural Struggle and Resistance Gender History and Canadian Sport M Ann Hall traces the early moments of organized women s sport in Canada to show that women s sport in Canada is built on far stronger foundations than is often assumed In the following chapter Kevin Wamsley argues that not all men were privileged by early Canadian sport practices For instance he outlines the process through which sport became an arena for the construction of particular types of masculinity notably masculinities that helped reinforce the dominance of powerful groups of men Beginning from the premise that Canadian society and thus Canadian sport is far from classless Peter Donnelly and Jean Harvey provide numerous examples in Chapter 6 to show that there have been major social class and gender inequalities throughout the history of

sport Again we are reminded that gender is a complex and multidimensional phenomenon that can best be understood if we trace power differences not only between different groups of men and women but also between different versions of masculinity and femininity associated with particular social groups social classes and social settings Part II of this book focuses on the work currently being done by leading researchers in the area of sport and gender in Canada on a broad spectrum of sport related topics The chapters reflect a variety of theoretical standpoints and methodological procedures These chapters emphasize the need to study gender in a way that is not only non categorical but perhaps moves beyond the distributive level towards understanding how sport assumes particular forms at particular historical junctures and grows out of relations of power that are determined culturally and reinforced ideologically In Chapter 6 Sally Shaw and Larena Hoeber show how the prevalence of gendered discourses hinders the achievement of gender equity in Canadian amateur sport organizations The idea that there is no singular masculinity and femininity operating within Canadian sport is developed in Chapter 7 in which Philip White and Kevin Young review research findings on gender and rates and types of sport injury In Chapter 8 Caroline Davis observes that some femininities are more closely associated with body image disorders than others and discusses the biological sociological and psychological factors acting on the relationship between sport physical activity and eating disorders Chapter 9 by Peter Donnelly Who's Fair Game Sport Sexual Harassment and Abuse identifies how power differences tend to exist at the heart of abusive and exploitive sport based relationships Notions of power relations are also central to Chapter 10 written by Patricia Vertinsky and Sandra O'Brien Cousins on the effects of gender on participation in sport among older Canadians Specifically their chapter demonstrates how older women are disadvantaged relative to men when it comes to involvement in sport and physical activity Victoria Paraschak's chapter on sport and Canada's First Nations peoples Chapter 11 provides vivid examples of how unequal gender relations are created and reproduced over time Chapter 12 calls for a collapsing of the rigid binary categories of hetero homosexuality on the grounds that these are used to preclude full and equal gay and lesbian participation in sport Identifying patterns of exclusion from participation in sport and physical activity is also the focus of Chapter 13 which is authored by Wendy Frisby Colleen Reid and Pamela Ponc This chapter demonstrates how a combination of poverty and prevailing municipal recreation department policies seriously limit the opportunities of many women from active recreation In Chapter 14 Brian Wilson explores how the media reinforces taken for granted understandings of gender appropriate orientations toward the body and sport In the following chapter Jamie Bryshun and Kevin Young provide some of the first substantial evidence for the routine involvement of female athletes in initiation hazing rituals in Canada and conclude that power relations between neophyte and veteran female players may be just as aggressive coercive and high risk as those occurring on male teams Sport and Gender in Canada reflects a growing body of work highlighting the diversity that exists among Canadian sportswomen and sportsmen in terms of factors such as age race heritage sexuality and social class To speak of a generic sporting masculinity or femininity or indeed of a generic

sporting experience simply does not do justice to the complexity of Canadian sporting life **Socio-economic**
