Polynesian Navigators Elsdon Best, 1918 *Sea People: In Search of the Ancient Navigators of the Pacific* Christina Thompson, 2019-03-12 Winner of the 2020 Australian Prime Minister's Literary Award for nonfiction and the 2019 NSW Premier's History Awards for general history Wonderfully researched and beautifully written Philip Hoare author of *Leviathan* Succeeds in conjuring a lost world Dava Sobel author of *Longitude* Who's Who in Pacific Navigation John Dunmore, 2019-09-30 More than four centuries have passed since Europeans first set eyes on the Pacific that vast ocean about which earlier generations had theorized and fantasized They soon ventured forth in search of undiscovered lands unknown peoples and imagined riches Eventually the Pacific came to reflect the rivalries of Europe as Spanish explorers were followed by the Dutch the English and the French and then by traders and colonizers Now for the first time collected in a single convenient reference volume readers will be able to find details of the lives and achievements of those who took part in this great era of exploration This biographical dictionary includes the major figures of the voyages of exploration as well as missionaries traders whalers naturalists and others who by accident or design contributed to European discovery in the Pacific between the sixteenth and early twentieth centuries Scholars and others interested in this era will be able to identify easily and promptly the people they come across in their reading situate them in their proper context and gain an idea of their background travels and achievements John Dunmore has scrutinized a wealth of primary and secondary sources to amass the information collected here Some biographies are lengthy noted individuals like Cook have spawned a massive bibliography while others reflect the sparsity of the historical record Who's Who in Pacific Navigation includes a detailed bibliography organized by country to aid those wishing to delve further into any subject The comprehensive index makes the information in the volume easily accessible The Stolen Gift David G. Stone, *The Explosive Expos That Will Change How You See Scientific Progress Forever* What if the greatest breakthroughs in human history weren't breakthroughs at all but thefts Behind every discovery that changed the world lies an uncomfortable truth someone knew it first Indigenous communities traditional healers and ancient cultures developed the knowledge that built modern medicine agriculture technology and industry only to watch as others claimed credit filed patents and built fortunes on their stolen wisdom Discover the shocking truth behind How pharmaceutical giants built billion dollar empires on traditional plant medicines The theft of agricultural knowledge that feeds the world today Ancient engineering secrets rebranded as modern innovation

Traditional healing practices commercialized without consent or compensation The ongoing appropriation of indigenous knowledge in the digital age Legal battles over who owns thousands of years of cultural wisdom Real world impacts on communities whose gifts were stolen Why this pattern of exploitation continues in labs and boardrooms today The Stolen Gift takes you inside the most systematic theft in human history the appropriation of traditional knowledge by Western science and industry From the Amazon rainforest to Himalayan monasteries from African healing traditions to Pacific Island navigation techniques this groundbreaking investigation reveals how indigenous wisdom became corporate property But this isn't just about historical injustice Every day algorithms steal traditional patterns pharmaceutical companies claim patents on ancient remedies and wellness industries profit from spiritual practices developed over millennia The theft continues hidden behind scientific jargon and corporate PR campaigns Yet this is also a story of remarkable resistance Indigenous communities are fighting back with lawsuits advocacy and innovative protection strategies Traditional knowledge keepers are demanding recognition And a new generation of ethical scientists is working to create fair partnerships that honor source communities while advancing human knowledge Through meticulously researched case studies shocking revelations and inspiring stories of cultural reclamation The Stolen Gift exposes how science and industry have systematically exploited traditional knowledge and what we can do to build a more ethical future Perfect for readers of The Immortal Life of Henrietta Lacks Braiding Sweetgrass and anyone who believes that credit should go where credit is due This is the book that will make you question everything you thought you knew about innovation progress and who really deserves recognition for the knowledge that shapes our world Warning After reading this book you'll never look at scientific breakthroughs the same way again

The Navigators' Islands, Or Samoan Group, 1872 Sea People Christina Thompson, 2019-03-12 A blend of Jared Diamond's *Guns Germs and Steel* and Simon Winchester's *Pacific* a thrilling intellectual detective story that looks deep into the past to uncover who first settled the islands of the remote Pacific where they came from how they got there and how we know For more than a millennium Polynesians have occupied the remotest islands in the Pacific Ocean a vast triangle stretching from Hawaii to New Zealand to Easter Island Until the arrival of European explorers they were the only people to have ever lived there Both the most closely related and the most widely dispersed people in the world before the era of mass migration Polynesians can trace their roots to a group of epic voyagers who ventured out into the unknown in one of the greatest adventures in human history How did the earliest Polynesians find and colonize these far flung islands How did a people without writing or metal tools conquer the largest ocean in the world This conundrum which came to be known as the Problem of Polynesian Origins emerged in the eighteenth century as one of the great geographical mysteries of mankind For Christina Thompson this mystery is personal her Maori husband and their sons descend directly from these ancient navigators In *Sea People* Thompson explores the fascinating story of these ancestors as well as those of the many sailors linguists archaeologists folklorists biologists and geographers who have puzzled over this history for three hundred years A

masterful mix of history geography anthropology and the science of navigation Sea People combines the thrill of exploration with the drama of discovery in a vivid tour of one of the most captivating regions in the world Sea People includes an 8 page photo insert illustrations throughout and 2 endpaper maps The Exploration of the World: The great navigators of the

Breadfruit Russell Fielding,2025-12-02 Breadfruit trees are staples of the tropics bearing cantaloupe sized green skinned fruits whose taste and texture resemble potatoes More than three thousand years ago breadfruit fueled the Pacific voyages of discovery that settled islands throughout Oceania In the late eighteenth century the British expedition that ended with the mutiny on the Bounty aimed but failed to introduce breadfruit to the West Indies as food for enslaved African laborers on sugar plantations A later voyage resulted in the fruit s widespread distribution and complicated role within modern Caribbean food cultures In recent years breadfruit has been touted as a tool for sustainable development and as a superfood with both health benefits and culinary versatility Russell Fielding tells these stories and many others exploring breadfruit s fascinating global history and varied present day uses Bringing together extensive research and vivid travelogues including learning directly from local agriculturists chefs scientists and holders of traditional knowledge he provides an immersive narrative of breadfruit s contributions Fielding argues that breadfruit s history comprises two journeys first from its origins in Southeast Asia across the Pacific and second its transplantation to the Caribbean Today a third journey is taking place one that is spreading breadfruit throughout the world Engagingly written and compellingly argued this book draws timely lessons from breadfruit s past to forecast its future potential **The Great Navigators of**
