William Rossetti's Art Criticism Julie L'Enfant, 1999 William Rossetti's Art Criticism examines the art criticism of William Michael Rossetti an underrated member of the Pre Raphaelite Brotherhood and places it within the context of Victorian Culture Drawing on many reviews never published in book form this study establishes Rossetti as a major art critic and valuable source of information on the Victorian world The author presents Rossetti's role in the Pre Raphaelite movement as editor of *Germ* and as a beginning reviewer when he maintained the realist creed seen in D G Rossetti Millais and Holman Hunt She then follows his broadening view through his exposure to French and Japanese art that affected his eventual sensitive response to James McNeill Whistler The study concludes with a personal examination of his final approach which he called aesthetic realism in which he is grounded in nineteenth century realism but also shows a twentieth century determination to examine works closely as autonomous objects It also addresses new findings in Rossetti's own Japanese art collection his search for a vital spirit of the past in the Classical and Gothic Revivals and his importance as an authoritative spokesman for humanistic values in Victorian culture

**John Singleton Copley in England** Emily Ballew Neff, John Singleton Copley, 1995 John Singleton Copley is well known in America as the creator of the finest portraits of the Colonial era Less well known is the fact that he left America in 1774 when the impending armed struggle between the Colonies and England threatened to destroy his livelihood and settled in London to pit himself ambitiously against the Old Masters and the English giants of the day Copley's English career was long and brilliant and represents the most important period of his working life During the forty one years he spent in England Copley created his great masterpieces of history painting and portraiture that stand as key monuments of British painting From the earliest days of his career in London Copley realized that he would have to do everything possible to stand out in a crowded field of painters and create works that would bring him instant notice This he did with his first great English picture *The Copley Family* 1776-77 and even more dramatically with the landmark *Watson and the Shark* 1778 He quickly mastered the elements of the fashionable English style of painting exchanging the tight and linear handling of the Colonial period for one more fluid and expressive By the 1780s Copley was reckoned one of the most important painters working in England a clear rival to his compatriot Benjamin West With his masterpiece *The Death of Major Pierson* 1784 Copley assumed a place of primacy in the field of history painting While William L Pressly gives a balanced up to date exposition of Copley's English career Emily Ballew Neff examines his masterpiece *The Death of Major Pierson* in particular detail and is the author of the catalogue of his major English works This is a long overdue study of this important painter

**Books in Print**, 1982 *Painting the Cannon's Roar* Thomas Tolley, 2001 From c 1750 to c 1810 the paths of music history and the history of painting converged with lasting consequences The publication of Newton's *Opticks* at the start of the eighteenth century gave a scientific basis to the analogy between sight and sound allowing music and the visual arts to be defined more closely in relation to one another This was

also a period which witnessed the emergence of a larger and increasingly receptive audience for both music and the visual arts an audience which potentially included all social strata The development of this growing public and the commercial potential that it signified meant that for the first time it became possible for a contemporary artist to enjoy an international reputation Nowhere is this better illustrated than in the career of Joseph Haydn Although this phenomenon defies conventional modes of study the book shows how musical pictorialism became a major creative force in popular culture Haydn the most popular living cultural personality of the period proved to be the key figure in advancing the new relationship The connections between the composer and his audiences and leading contemporary artists including Tiepolo Mengs Kauffman Goya David Messerschmidt Louthembourg Canova Copley Fuseli Reynolds Gillray and West are examined here for the first time By the early nineteenth century populism was beginning to be regarded with scepticism and disdain Mozart was the modern Raphael Beethoven the modern Michelangelo Haydn however had no clear parallel in the accepted canon of Renaissance art Yet his recognition that ordinary people had a desire to experience simultaneous aural and visual stimulation was not altogether lost finding future exponents in Wagner and later still in the cinematic arts **Nelson** Roger Morriss, Brian Lavery, Stephen Deuchar, National Maritime Museum (Great Britain), 1995 I will be a hero and confiding in Providence I will brave every danger Nelson was 18 in 1776 when he made this declaration By the time of his death in 1805 he had established himself as a brilliant fighting commander and naval tactician His reputation as one of the greatest heroes of British history has lasted nearly two centuries *The Eighteenth Century*, 1970 **Shakespeare Survey** Allardyce Nicoll, 1996 An annual survey of Shakespearian study and production **The Scriblerian and the Kit-Cats**, 1994
