Burnand, 1869      **The Calais Garrison** David Grummitt, 2008 Definitive account of the English garrison at Calais the largest contemporary force in Europe in the wider context of European warfare in the middle ages This is the book on the Calais garrison we have been waiting for COLIN RICHMOND For over 200 years following its capture by Edward III in 1347 the town of Calais was in English hands after 1453 it remained the last English possession on the continent a commercial cultural diplomatic and military frontier until its recapture by the French in 1558 This book the first full length study so to do examines the Calais garrison the largest standing military force available to the English crown Based on extensive archival research it covers recruitment and service in the garrison the problems of pay and logistics the weaponry and tactics used and the chivalric and professional ethos among the soldiers It also investigates the effectiveness of English arms against their European counterparts through a detailed study of the failed Burgundian siege of 1436 and the successful French siege of 1558 Overall it reaffirms the importance of Calais to successive medieval and early modern English kings and challenges the perceived notion that England lagged behind its northwest European rivals in terms of military technology and effectiveness The Calais garrison is placed in the wider context of the development of European warfare in general during this period

Eric Lohr, Marshall Poe, 2002-11-01 This book explores the interaction of the Russian military and society in the early modern and modern period In contrast to straightforward military histories the volume is concerned with the myriad political economic and cultural currents that shaped the Russian armed forces from their beginnings in Muscovite times to the end of World War I The book begins with an attempt by the editors to provide a large frame in which to place the various contributions What follows are three topical sections including 22 detailed often archival based monographic articles The first section concerns The Military and Society in Muscovy the second section focuses on The Military and Society in Imperial Russia The third part analyzes Patriotism Nationality Religion and the Military

*Military Design Thinking* Aaron P. Jackson, 2024-09-30 This book examines the newly emergent field of military design thinking how it has been developed

inside and outside of military doctrine and the paradigms that underlie its key thinkers and methodologies From the emergence of its initial methodologies in the late 1990s military design thinking s development rapidly accelerated in the mid 2000s in response to perceived failures of existing military doctrine and practice to adapt to the wars of the early 21st century To establish a foundation for exploring the significance of the challenge military design thinking presented to dominant approaches to warfare the early chapters in the book examine the ontology and epistemology of military doctrine which is defined as a written expression of a military s institutional belief system regarding how to wage war They also explain how attempts to incorporate military design thinking into doctrine ultimately led to its assimilation into this belief

system requiring military design thinkers to continue to explore and develop the field outside of doctrine Since the mid 2010s non doctrinal military design methodologies have become increasingly prominent within several Western militaries including the US Canada UK Australia and several European militaries Later chapters offer an exploration of the paradigms underlying non doctrinal as well as doctrinal design methodologies This book highlights how the field has evolved shows how military design thinking differs from its civilian equivalents developed in fields such as commerce and business management and discusses how it may evolve in the near future This book will be of much interest to students of military studies security studies and international relations as well as to military professionals
