The Path Of Knowledge:

The Path of Knowledge: from Dualism to AI Lucas Andrioli, 2025-04-11 The Path of Knowledge from Dualism to AI is a fascinating journey that explores how human thought has evolved from early philosophical ideas to the challenges of artificial intelligence Through revealing anecdotes and key characters this book shows the deep connections between philosophy science and technology and invites us to reflect on the impact of these advances on our daily lives and on what it means to be human How will AI influence our decisions and what we believe To what extent can our intuitions and ways of thinking coexist with the cold logic of machines And most importantly what does it really mean to be human in a world where artificial intelligence is constantly evolving With an accessible and engaging approach this book is ideal for those who want to understand the past and present of knowledge and for those who want to imagine the future in a world increasingly dominated by intelligent machines

dominated by intelligent machines **The Sufi Path of Knowledge** William C. Chittick, 2010-03-31 Ibn al Arabi is still known as the Great Sheik among the surviving Sufi orders Born in Muslim Spain he has become famous in the West as the greatest mystical thinker of Islamic civilization He was a great philosopher theologian and poet William Chittick takes a major step toward exposing the breadth and depth of Ibn al Arabi s vision The book offers his view of spiritual perfection and explains his theology ontology epistemology hermeneutics and soteriology The clear language unencumbered by methodological jargon makes it accessible to those familiar with other spiritual traditions while its scholarly precision will appeal to specialists Beginning with a survey of Ibn al Arabi s major teachings the book gradually introduces the most important facets of his thought devoting attention to definitions of his basic terminology His teachings are illustrated with many translated passages introducing readers to fascinating byways of spiritual life that would not ordinarily be encountered in an account of a thinker s ideas Ibn al Arabi is allowed to describe in detail the visionary world from which his knowledge derives and to express his teachings in his own words More than 600 passages from his major work al Futuhat al Makkiyya are translated here practically for the first time These alone provide twice the text of the Fusus al hikam The exhaustive indexes make the work an invaluable reference tool for research in Sufism and Islamic thought in general *The Path of*
