The Wesleyan-Methodist Magazine ,1814 Relativization in Ojibwe Michael D. Sullivan,2020-01-01 In Relativization in Ojibwe Michael D Sullivan Sr compares varieties of the Ojibwe language and establishes subdialect groupings for Southwestern Ojibwe often referred to as Chippewa of the Algonquian family Drawing from a vast corpus of both primary and archived sources he presents an overview of two strategies of relative clause formation and shows that relativization appears to be an exemplary parameter for grouping Ojibwe dialect and subdialect relationships Specifically Sullivan targets the morphological composition of participial verbs in Algonquian parlance and categorizes the variation of their form across a number of communities In addition to the discussion of participles and their role in relative clauses he presents original research linking geographical distribution of participles most likely a result of historic movements of the Ojibwe people to their present location in the northern midwestern region of North America Following previous dialect studies concerned primarily with varieties of Ojibwe spoken in Canada Relativization in Ojibwe presents the first study of dialect variation for varieties spoken in the United States and along the border region of Ontario and Minnesota Starting with a classic Algonquian linguistic tradition Sullivan then recasts the data in a modern theoretical framework using previous theories for Algonquian languages and familiar approaches such as feature checking and the split CP hypothesis **The Works of Plato** **Abridg'd** Plato,1701 **Up-Country Swahili - For the Soldier, Settler, Miner, Merchant, and Their Wives - And for all who Deal with Up-Country Natives Without Interpreters** F.
